Portable power for business on the go

ASUS ExpertBook B5 is built for business success in style, with a precision-crafted and minimalist chassis that pushes the limits of lightness. It’s also set for serious travel with an amazing 14-hour battery life, and is engineered with many cutting-edge technologies to improve your on-the-go work efficiency. These include a 11th Gen Intel® Core™ processor, AI noise cancellation and dual-SSD RAID support, ASUS NumberPad 2.0. It’s also packed with features to protect your privacy and business data, including a built-in fingerprint sensor and TPM 2.0 chip. With Intel Evo certification, ExpertBook B5 is your perfect portable, powerful partner for the corporate world.

Performance

Get the job done, effortlessly

To make light work of all your business tasks, ExpertBook B5 is powered by an up to 11th Gen Intel Core i7 processor with Iris Xe graphics and superfast intel WiFi 6, providing quick and responsive computing, network and graphical performance with enterprise-grade manageability. It also features two SSDs to provide huge up to dual 1 TB capacity and faster speed, and supports RAID technology2 for improved data reliability or faster operation. ExpertBook B5 is also a verified Intel Evo laptop, so you can be assured it offers the very best in performance, efficiency and connectivity.

RAID technology

RAID, or Redundant Array of Independent Disks, is a storage technology that allows multiple drives to

behave as one. ExpertBook B5 supports both RAID 0 and RAID 1 levels2 for superior performance for improved data security. The former stripes data stored evenly across two drives for up to 2x faster operations. The latter, by contract, automatically creates an exact copy of all data on both disks — so if one should fail, it’s quick and easy to recover from the other.
