Description

Asus NUC 13 Pro Intel Core i5-1340P, 2 x SO-DIMM DDR4, 2.5G Ethernet, Intel Wi-Fi 6E AX211, Bluetooth 5.3, black – RNUC13ANKI500002I

The **Asus NUC 13 Pro i5** is a compact and high-performance mini PC designed for professional and business use in the MEA region. Equipped with **Intel Core i5-1340P, 2x SO-DIMM DDR4, 2.5G Ethernet, Intel Wi-Fi 6E AX211**, and **Bluetooth 5.3**, the **Asus NUC 13 Pro i5** delivers fast processing, reliable multitasking, and seamless connectivity. Its sleek **black design** makes it ideal for offices, workstations, and modern setups.

Smaller, Faster, Better, AI Ready

The ASUS NUC brand represents a commitment to technological excellence, prioritizing innovative product design, to push the boundaries of performance and user experience. Developed through a partnership between ASUS and Intel, the ASUS NUC product lines anchor on

delivering uncompromised performance in the smallest form factors, backed by industry best quality and reliability, innovative modular designs, extended lifespan options, smart cooling solutions, and advanced AI capabilities. The versatility of the products shines through an array of configurations catering to diverse user needs, from developers, to power users, to casual home use. Positioned as the preferred choice for a variety of business applications, vertical industries, and everyday users, the ASUS NUC combines exceptional performance with essential features, aiming to shape the next generation of PC experiences.

With a focus on supporting diverse businesses and enhancing PC applications, the ASUS NUC aspires to deliver on the brand promise of delivering the Next Unit of Compute (NUC) and make a lasting impact in the ever-evolving tech landscape.

Business Driver. Space Saver.

ASUS NUC 13 Pro Mini PCs, Kits, and Boards offer the combination of size, performance, and reliability you need to drive modern business.

It all starts with 13th Gen Intel Core processors that deliver outsized performance in a 4×4 form factor, with up to 14 processor cores (6P+8E) and up to 64GB dual-channel DDR4 memory. Select SKUs also come with Intel vPro® Enterprise, which provides comprehensive security, enterprise-grade stability, and hardware-based remote management.

The NUC Pro Software Suite (NPSS) helps to ensure digital signage applications keep running during any unexpected system failures. Businesses also benefit from advanced features including power control, hardware alarm clock, hardware KVM, boot redirection, beyond firewall support, cloud-based manageability, remote PC remedy, and unattended system control.

To provide an eco-friendly foundation for businesses, ASUS NUC 13 Pro Mini PCs and Kits are upgradable, repairable, and reusable. Every system is qualified for 24×7 operation.

The Mini PC That Means Business
