

Crucial P3 2TB PCIe NVME CT200P3

Description

Crucial P3 2TB PCIe NVME CT200P3

Upgrade your system with **Crucial 32GB DDR4 RAM**, designed for high-speed performance and seamless multitasking. This **Crucial 32GB DDR4 RAM** module runs at 3200 MHz, making it ideal for desktops that demand faster load times, efficient processing, and reliable performance for professional or gaming use.

Features

Crucial P3 NVMe SSD

The NVMe Speed You Need

Say goodbye to SATA.

NVMe PCIe 3.0 up to 3500MB/s

Crucial P3 NVMe SSD

Basic bootup speeds won't cut it — not at work, on the go, or in the game. But the **Crucial P3 2TB 2TB SSD** is anything but basic. With NVMe™ performance that's nearly 6x faster than SATA² and storage capacities up to 4TB³, the P3 leaves older storage technology in the dust. Get faster bootups, downloads and file transfers, and store all your files, photos, videos, apps, and games with room to spare with the quality and dependability you expect from Crucial. Crucial P3 NVMe SSD

Boost your PC's performance with [Crucial 32GB DDR4 3200 Desktop RAM](#), perfect for multitasking, gaming, and demanding workloads.
