

Dell Latitude 5430 Intel Core i5-1235U 8 GB DDR4 256GB 14.0 FHD NonTouch English Fingerprint Reader

Description

Dell Latitude 5430 Intel Core i5-1235U 8 GB DDR4 256GB 14.0 FHD NonTouch English Fingerprint Reader

The **Dell Latitude 5430 i5** is a reliable business-class laptop built for mobility and security. It features a 12th Gen Intel Core i5-1235U, 8GB DDR4 RAM, 256GB SSD, a 14.0" FHD display, and a built-in fingerprint reader. Designed for professionals who need speed and safety, it's now available at **Supertech**, your authorized Dell supplier in the UAE.

Features

Available with Windows 11 Pro.

The confidence to work anywhere

ExpressConnect

Be on 2 networks at once with the world's first simultaneous multi-network connection for faster data and video downloads. Get up to 20% more in data transfer from optimized networking, 30% faster application data processing and 8 times better video quality from optimized internet bandwidth.

4G & Wi-Fi 6E connections

Wi-Fi 6E allows 7 more channels for more bandwidth which provides faster, smoother Wi-Fi, especially in high-density areas, while 4G LTE options keep you connected wherever you work.

Work remote for longer

Long battery life with ExpressCharge that provides up to 80% charge within 60 minutes.

The reliability to collaborate everywhere

Intelligent Privacy

Onlooker detection notifies you when someone is peering at your screen and will dim or blur your screen, while Look Away Detect knows when your focus is elsewhere and dims to further protect privacy and save battery life. Dell's SafeShutter comes standard for added privacy control.

Enhanced camera and privacy

Look great on every video call with improved FHD IR camera options. Available Temporal Noise Reduction enhances image quality in any light.

ExpressSign-In

A camera-based proximity sensor wakes your system on approach and locks when you walk away.

Intelligent Audio

Artificial intelligence improves audio and voice quality and adjusts for different environments. Neural Noise-Cancellation eliminates unwanted background noise as well as the background noise of the participants on your call.

Performance perfected

ExpressResponse

Based on user behavior, ExpressResponse prioritizes your CPU to improve the performance of the apps you're currently using.

Cool under pressure

New larger dual opposite outlet fan with optimized venting and other thermal improvements keep your system cool even when working with multiple applications. Dell offers the broadest range of settings, so you can finely tune for the perfect balance of performance, cooling and battery run time.

Power every project

Enable maximum productivity in more places with 12th Gen Intel® up to Core™ i7 U-series processors and available Intel vPro®.

Storage and memory to spare

With up to 64 GB DDR4 memory and up to 2 TB SSD storage, no project is too big.

The most sustainable Latitude portfolio: Working toward Dell's goals, so you can meet yours

New 100% recycled or renewable packaging

Packaging that looks good and feels good. The first design to meet 2030 moonshot goals.

Dell's 1st PCs made with bio-based materials

5000 Series were the 1st PCs in the world made with tree-based bioplastic. The lid contains 21% bioplastic, 30% recycled plastic and 20% reclaimed carbon fiber. Dell also added 39% bio-based rubber bumpers on the bottom of the device.

Innovating with even more recycled material

The Latitude 5000 series have the world's most innovative use of sustainable materials in mainstream business laptops, featuring recycled plastics, recycled carbon fiber, bio-based materials, and ocean bound plastics.

Recycling e-waste

Help Dell in its mission to make products with at least 50% recycled or renewable content. Send your e-waste (old electronics of any brand) for recycling or reuse in support of a circular economy.

A screen for productivity

Easy on the eyes

Complete your work in comfort by choosing a ComfortView Plus Low Blue Light display featuring 400 nits of brightness and a super low power panel for longer battery run times.

Expansive screen in a small footprint

The world's smallest 14" mainstream business laptop also has impressive screen to body ratio.

Windows 11 Pro — designed for hybrid work

The most productive and secure version of Windows yet — but simple for IT.
