Features & Design

AI performance at your fingertips

A new way of computing: The new Intel® Core™ Ultra processor delivers the next generation of hybrid architecture for supercharged
computing with a battery that lasts. Thanks to a three tier multi-processing unit, business users can manage complex workloads by
sending the right task to the right engine at the right time. A CPU manages lightweight low-latency AI tasks, a GPU manages media and
visual AI rendering, and an NPU, a dedicated AI engine, manages sustained AI and AI offload.
AI-accelerated apps: An NPU helps apps run fast and smooth for efficient:

- **Collaboration:** Use up to 38% less power when utilizing AI-enhanced collaboration tools during Zoom calls.
- **Creativity:** 132% faster performance when running on-device AI photo editing on Adobe.
- **Security:** Detect malware with less than 1% CPU utilization using CrowdStrike.

Copilot Hardware Key: Effortlessly jumpstart your workflow with the Copilot Hardware Key on your device, saving you time by providing

quick access to the tools you need to start your workday.
Exceptional battery life: The Latitude 5450 with Intel® Core™ Ultra offers battery life up to 18% longer on average than the previous generation.

Always camera ready

Look your best on conference calls thanks to simultaneous multi-exposure High Dynamic Range (HDR). Available on configurations with an
FHD or FHD IR camera, HDR technology takes several pictures simultaneously and blends them to accurately capture image detail in
challenging lighting conditions, such as windowed offices and conference rooms.

Ultimate security to work from everywhere

Layered security: The industry's most secure commercial PCs offering Dell SafeID, Dell SafeBIOS, fingerprint readers, TPM chip and lock
slot options. Latitude 5450 also features built-in security options such as contacted/contactless smart card readers, Control Vault 3+,

privacy shutters, Windows Hello/IR camera and intelligent privacy.

Peace of mind: Intelligent privacy features from Dell Optimizer help keep sensitive data private. Onlooker Detection notifies you when someone

is peering at your screen and will texturize your screen, and Look Away Dim knows when your focus is elsewhere and

dims to further protect privacy and save battery life.

Be secure from first boot: Rigorous supply chain controls and optional Dell SafeSupply Chain solutions reduce the risk of product tampering.

Verify the integrity of the device with Dell-unique Secured Component Verification. Additional supply chain assurance
available with tamper-evident packaging and hard drive wipes.

Innovating with sustainability

This year, shipping with 50% recycled cobalt in batteries.
Designed with a variety of sustainable materials including post-consumer recycled plastic, ocean-bound plastic, bio-based plastic and reclaimed carbon fiber.
100% recycled, renewable and recyclable packaging with multipack options for even lesser waste.
EPEAT Gold registered with Climate+.

Scalable productivity

Stay connected all day: Outstanding battery life and choice of long cycle life batteries up to 54WHr with ExpressCharge.

Visually stunning: Display options including FHD Touch as well as a battery saving and ComfortView Plus option to

maximize performance and keep your eyes comfortable.

Fast response time: Improved performance with DDR5 upgradeable memory up to 64GB.

Crystal clear audio: Intelligent audio removes background noise on both ends of the call, while Dynamic Volume adjusts your PC speaker
volume so you can hear your call clearly over unexpected noises.

Experience uncompromised connectivity

High-speed connections : Available Wi-Fi 6E and 4G LTE or 5G options ensure you're always connected at the industry's fastest speeds.
Productivity anywhere: Network Optimization joins the best available network, prioritizes conferencing apps and delivers
fast data and video downloads with the world's first simultaneous multi-network connection.
Convenient connectivity: Quickly connect to peripherals with a broad range of ports including Thunderbolt™ 4.0 USB-C, HDMI 2.1 and USB-A.

Dell Optimizer

Personalized performance that automatically responds to your workstyle, with advanced privacy features and built-in AI that optimizes audio,
connectivity, productivity and configurability, all in one software.

Thin Client Solution

Pair the Latitude 5450 with Dell ThinOS, Dell Hybrid Client or Windows 10 IoT Enterprise for a personalized thin client solution delivering
confident access to your virtual workspaces. All powered by Cloud Client Workspace.

Modern Workforce Solutions

Accelerate anywhere work experiences by modernizing how you deploy, manage and support devices with PC as a Service.
Leverage both the built-in protections of the industry's most secure commercial PCs and software protections for advanced
threats to help ensure a trusted workspace under a predictable price per month.

Accelerate business success with Copilot and Windows 11 Pro

Industry-leading AI. Powerful cybersecurity. Designed for business.
AI-powered multi-tasking mastery for a new way of working with Windows 11 Pro. With features like Copilot in Windows, get better answers,
grow your skills, and effortlessly optimize workflows. Windows 11 Pro on Dell PCs come with the latest

advances in security and AI delivered

conveniently to your desktop. Benefit from AI-enhanced efficiency, performance, and security today, and innovate to take on new challenges tomorrow.
Looking for a reliable and secure laptop? The **Dell Latitude 7450 Core Ultra 7 165U** at **Supertech** offers enhanced performance, security with a fingerprint reader, and a user-friendly touchscreen, all backed by a 3-year warranty. Perfect for professionals seeking both reliability and efficiency.
