

Dell Latitude 5430 Intel Core i5-1235U 8GB RAM 256GB SSD Free Dos Arabic 1 Year

Description

Dell Latitude 5430 Intel Core i5-1235U 8GB RAM 256GB SSD Free Dos Arabic 1 Year

The **Dell Latitude 5430** is tailored for Arabic-speaking professionals who demand a balance of performance and usability. Powered by Intel Core i5-1235U, it features 8GB RAM, a fast 256GB SSD, a crisp 14" FHD display, and a backlit keyboard for work in any lighting. With DOS and regional support, it's now available at **Supertech** — your reliable Dell distributor in the UAE.

Features

The confidence to work anywhere

ExpressConnect

Be on 2 networks at once with the world's first simultaneous multi-network connection for faster data and video downloads. Get up to 20% more in data transfer from optimized networking, 30% faster application data processing and 8 times better video quality from optimized internet bandwidth.

4G & Wi-Fi 6E connections

Wi-Fi 6E allows 7 more channels for more bandwidth which provides faster, smoother Wi-Fi, especially in high-density areas while 4G LTE options keep you connected wherever you work.

Work remote for longer

Long battery life with ExpressCharge that provides up to 80% charge within 60 minutes.

The reliability to collaborate everywhere

Intelligent Privacy

Onlooker detection notifies you when someone is peering at your screen and will dim or blur your screen, while Look Away Detect knows when your focus is elsewhere and dims to further protect privacy and save battery life. Dell's SafeShutter comes standard for added privacy control.

Enhanced camera and privacy

Look great on every video call with improved FHD IR camera options. Available Temporal Noise Reduction enhances image quality in any light.

ExpressSign-In

A camera-based proximity sensor wakes your system on approach and locks when you walk away.

Intelligent Audio

Artificial intelligence improves audio and voice quality and adjusts for different environments. Neural Noise Cancellation eliminates unwanted background noise as well as the background noise of the participants on your call.

**Performance perfected****ExpressResponse**

Based on user behavior, ExpressResponse prioritizes your CPU to improve the performance of the apps you're currently using.

Cool under pressure

New larger dual opposite outlet fan with optimized venting and other thermal improvements keep your system cool even when working with multiple applications. We offer the broadest range of settings so you can finely tune for the perfect balance of performance, cooling and battery run time.

Power every project

Enable maximum productivity in more places with 12th Gen Intel® up to Core™ i7 U-series processors and available Intel vPro®.

Storage and memory to spare

With up to 64GB DDR4 memory and up to 2TB SSD storage, no project is too big.

New 100% recycled or renewable packaging

Packaging that looks good and feels good. The first design to meet our 2030 moonshot goals.

Dell's 1st PCs made with bio-based materials

Our 5000 Series were the 1st PCs in the world made with tree-based bioplastic. The lid contains 21% bioplastic, 30% recycled plastic and 20% reclaimed carbon fiber. We also added 39% bio-based rubber bumpers on the bottom of the device

Innovating with even more recycled material

The new Latitude 5000 Series have the world's most innovative use of sustainable materials in mainstream business laptops, featuring recycled plastics, recycled carbon fiber, bio-based materials and ocean bound plastics

Recycling e-waste

Help us in our mission to make our products with at least 50% recycled or renewable content. Send your e-waste (old electronics of any brand) to us for recycling or reuse in support of a circular economy.

A screen for productivity

Easy on the eyes

Complete your work in comfort by choosing a ComfortView Plus Low Blue Light display featuring 400 nits of brightness and a super low power panel for longer battery run times. Choose the FHD SafeScreen panel for added data privacy.

Expansive screen in a small footprint

The world's smallest 14" mainstream business laptop also has impressive screen to body ratio.
