Features

Operating system

Available with Windows 11.

The confidence to work anywhere

Supertech Web Store

ExpressConnect
Be on 2 networks at once with the world's first simultaneous multi-network connection for faster data and video downloads[1] Get up to 20% more in data transfer from optimized networking, 30% faster application data processing and 8 times better video quality from optimized internet bandwidth

4G & Wi-Fi 6E connections
Wi-Fi 6E allows 7 more channels for more bandwidth which provides faster, smoother Wi-Fi, especially in high-density areas while 4G[2] LTE options keep you connected wherever you work.

Work remote for longer
Long battery life with ExpressCharge that provides up to 80% charge within 60 minutes.

The reliability to collaborate everywhere

Supertech Web Store

Intelligent Privacy
Onlooker detection notifies you when someone is peering at your screen and will dim or blur your screen, while Look Away Detect knows when your focus is elsewhere and dims to further protect privacy and save battery life. Dell's SafeShutter comes standard for added privacy control.

Enhanced camera and privacy
Look great on every video call with improved FHD IR camera options. Available Temporal Noise Reduction enhances image quality in any light.

ExpressSign-In
A camera-based proximity sensor wakes your system on approach and locks when you walk away.

Intelligent Audio
Artificial intelligence improves audio and voice quality and adjusts for different environments. Neural Noise Cancellation eliminates unwanted background noise as well as the background noise of the participants on your call.

Performance perfected

ExpressResponse
Based on user behavior, ExpressResponse prioritizes your CPU to improve the performance of the apps you're currently using.

Cool under pressure
New larger dual opposite outlet fan with optimized venting and other thermal improvements keep your system cool even when working with multiple applications. We offer the broadest range of settings so you can finely tune for the perfect balance of performance, cooling and battery run time.

Power every project
Enable maximum productivity in more places with 12th Gen Intel®? up to Core™? i7 U-series processors and available Intel vPro®.

Storage and memory to spare
With up to 64GB DDR4 memory and up to 2TB SSD storage, no project is too big.

Our most sustainable Latitude portfolio: Working toward our goals, so you can meet yours

New 100% recycled or renewable packaging
Packaging that looks good and feels good. The first design to meet our 2030 moonshot goals.

Dell’s 1st PCs made with bio-based materials
Our 5000 Series were the 1st PCs in the world made with tree-based bioplastic. The lid contains 21% bioplastic, 30% recycled plastic and 20% reclaimed carbon fiber. We also added 39% bio-based rubber bumpers on the bottom of the device

Innovating with even more recycled material
The new Latitude 5000 series have the world’s most innovative use of sustainable materials in mainstream business laptops, featuring recycled plastics, recycled carbon fiber, bio-based materials[5], and ocean bound plastics

Recycling e-waste
Help us in our mission to make our products with at least 50% recycled or renewable content. Send your e-waste (old electronics of any brand) to us for recycling or reuse in support of a circular economy.
