Features & Design

Operating system

The confidence to work anywhere

ExpressConnect

Be on 2 networks at once with the world's first simultaneous multi-network connection for faster data and video downloads.

Get up to 20% more in data transfer from optimized networking, 30% faster application data processing and 8 times better

video quality from optimized internet bandwidth.

4G, 5G, & WiFi6E connections

Wi-Fi6E allows 7 more channels for more bandwidth which provides faster, smoother Wi-Fi, especially in high-density areas while 4G LTE options keep you connected wherever you work.

Work longer

Long battery life with ExpressCharge that provides up to 80% charge within 60 minutes.

The reliability to collaborate everywhere

Intelligent Privacy

Onlooker detection notifies you when someone is peering at your screen and will texturize your screen, while Look

Away Detect knows when your focus is elsewhere and dims the screen to further protect privacy and save battery life.

ExpressSign-In

Sign in seamlessly with ExpressSign-in. Camera-based proximity detection will wake-up your system and sign you in and

lock your system whenever you step away.

Intelligent Audio

Artificial intelligence improves audio and voice quality and adjusts for different environments. Neural Noise Cancellation eliminates

unwanted background noise as well as the background noise of the participants on your call.

Advanced camera

Optional FHD IR camera with manual shutter, dual sensors and Temporal Noise Reduction improves image quality, even in low light.

Multi-tasking for today's hybrid work

Power for every project

These PCs featuring Intel vPro[®], an Intel[®] Evo[™] design with 12th Gen Intel[®] U-series (15W) or P-series (28W), are built for

what IT needs with the power, responsiveness and battery life that business multitaskers want.

Cooler and quieter under pressure

New larger dual opposite outlet fan with optimized venting and other thermal improvements keep your system cool and up to

30% quieter than its predecessor even when working with multiple applications. We offer the broadest range of user-selectable performance,

temperature and fan noise settings.

Keep up with your work

Toggle seamlessly between multiple applications with choice of up to 32GB DDR4 on U-series processors or 32GB LPDDR5 on P-series processors.

A stunning front-of-screen experience

Easy on the eyes

ComfortView Plus, an always-on, built-in low blue light solution that reduces harmful blue light while delivering excellent color. TÜV Rheinland certified.

Stunning from every angle

FHD 400 nit, Safe Screen and a 4K option bring every image to life like never before, while the super low power panels

provide longer battery life and extended run time.

Their latest. Our greatest.

Together, Windows 11 and Dell PCs create a best-in-class experience.

An inspiring new look and feel makes for a calmer desktop. Snap assistant helps focus your workflow while desktops allow you to organize your open windows.

Call, chat, and make plans come to life with Teams on Windows 11 right from your PC regardless of what computer or phone or tablet they are on.
