

Dell PowerEdge R450 Rack Server Intel Xeon 4310 12C 16GB RAM 1.2TB HDD 700W 3 Year

Description

Dell PowerEdge R450 Rack Server Intel Xeon 4310 12C 16GB RAM 1.2TB HDD 700W 3 Year

Features & Design

Your innovation engine

The Dell PowerEdge R450 is a two-socket entry-level 1U server offering updated technologies and added value with faster processing speeds and flexible storage options.

Density-optimized general-purpose server

The Dell PowerEdge R450 with 3rd Generation Intel® Xeon® Scalable processors delivers the perfect combination of performance,

density and affordability for general-purpose scale and web-tech deployments.

- Supports up to 24 cores per CPU, and up to 16x DDR4 RDIMMs at up to 2933 MT/s
- Built with a minimum footprint and enterprise compute to fit into a variety of environments
- Manage with iDRAC9 Enterprise, OpenManage Enterprise and Plugins, iDRAC Direct, and Quick Sync 2.0
- Full-stack management integration with Microsoft, VMware, ServiceNow, Ansible and many other tools for on-premises, edge and cloud environments

Systems Management and Security Solutions

OpenManage systems management

The Dell Technologies OpenManage systems management portfolio helps tame the complexity of your IT environment with tools and solutions to discover, monitor, manage, update, and deploy your PowerEdge infrastructure.

Intelligent Automation

PowerEdge and OpenManage solutions integrate tools across the portfolio to help organizations automate the server lifecycle, optimize operations, and scale efficiently.

Built-in security

PowerEdge servers are made with a cyber resilient architecture that builds in security at every phase of the product lifecycle, from the silicon root of trust and secured component verification, to signed firmware and drift detection, to BIOS recovery.

Dell Technologies offers complete end-to-end services

Optimizing the IT lifecycle is vital. We have expert services for all lifecycle phases that save you time and resources, reduce effort, and improve your IT experience.

Consulting

Consulting services give expert guidance to help you grow, optimize and transform your IT environment at your own pace and budget.

We employ a broad range of certified consultants and engineers, backed by program management teams, who can deliver deep technical expertise.

We give you the confidence that your project will be done right and on time.

Support

Gain the freedom to focus on your business transformation with the support expertise and insights Dell is known for across the globe.

Choose the right support based on the criticality of specific systems with available automated predictive analysis,

collaborative third-party assistance and a Technology Service Manager.

Deployment

ProDeploy Enterprise Suite helps you get more out of technology starting on day one. Residency Service provides ongoing transition assistance

to accelerate adoption. Trust our experts to lead deployments from basic hardware installations through planning, configuration and

complex integrations to help you achieve business outcomes today and tomorrow.

Education

Education Services offers an expansive suite of training services with multiple delivery methods, including instructor-led, self-paced online and virtual instructor-led training. With comprehensive and flexible training programs, we make it easy to ensure your staff has the skills they need to successfully manage and utilize your new technology to its full potential.

Looking for reliable and high-performance server solutions? Check out the [Dell PowerEdge R550 Server](#) at Supertech, featuring Intel Xeon 4310, 16GB RAM, and 2.4TB HDD with a 600W power supply. Perfect for your business needs, backed by a 3-year warranty.
