Features & Design

Your innovation engine

The Dell EMC PowerEdge R750xs is a 2U, dual-socket, feature-optimized server with an ideal selection of CPU, I/O and storage performance for scale-out.

Purpose-built 2U for growing scale-out solutions

The Dell EMC PowerEdge R750xs with 3rd Generation Intel® Xeon® Scalable processors is designed for virtualization, medium VM density or VDI,

and software-defined storage node workloads.

Supports up to 32 cores per CPU, and up to 16x DDR4 RDIMMs at up to 3200 MT/s

Built for fast growing solutions with an optimal footprint and up to 24 drives for SDS deployments

Manage with iDRAC9 Enterprise, OpenManage Enterprise and Plugins, iDRAC Direct, and Quick Sync 2.0

Full-stack management integration with Microsoft, VMware, ServiceNow, Ansible and many other tools for on-premises, edge and cloud environments

Systems Management and Security Solutions

OpenManage systems management
The Dell Technologies OpenManage systems management portfolio helps tame the complexity of your IT environment with tools and solutions to discover,
monitor, manage, update, and deploy your PowerEdge infrastructure.
Intelligent Automation
PowerEdge and OpenManage solutions integrate tools across the portfolio to help organizations automate the server lifecycle,
optimize operations, and scale efficiently.
Built-in security
PowerEdge servers are made with a cyber resilient architecture that builds in security at every phase of the product lifecycle,
from the silicon root of trust and secured component verification, to signed firmware and drift detection, to BIOS recovery.

Dell Technologies offers complete end-to-end services

Optimizing the IT lifecycle is vital. We have expert services for all lifecycle phases that save you time and resources, reduce effort,
and improve your IT experience.
Consulting
Consulting services give expert guidance to help you grow, optimize and transform your IT environment at your own pace and budget.
We employ a broad range of certified consultants and engineers, backed by program management teams, who can deliver deep technical expertise.
We give you the confidence that your project will be done right and on time.
Support
Gain the freedom to focus on your business transformation with the support expertise and insights Dell is known for across the globe.
Choose the right support based on the criticality of specific systems with available automated predictive analysis,
collaborative third-party assistance and a Technology Service Manager.
Deployment
ProDeploy Enterprise Suite helps you get more out of technology starting on day one. Residency Service provides ongoing transition assistance to
accelerate adoption. Trust our experts to lead deployments from basic hardware installations through planning, configuration and complex integrations
to help you achieve business outcomes today and tomorrow.
Education

Education Services offers an expansive suite of training services with multiple delivery methods, including instructor-led, self-paced online and virtual
instructor-led training. With comprehensive and flexible training programs, we make it easy to ensure your staff has the skills they need to successfully

manage and utilize your new technology to its full potential.
Looking for a reliable entry-level server with excellent performance? Check out the Dell PowerEdge T150 Tower Server E-2314 with 8GB RAM and 1TB HDD – perfect for growing businesses.
