Dell PowerEdge R760xs Rack Server Intel Xeon Silver 4410Y 16GB RAM 2.4TB HDD 700W 1 Year

Features & Design

Innovate where you never thought possible

Deploy massive compute anywhere with the latest family of powerful, secure servers engineered to accelerate automation and innovation.

Your innovation engine

The Dell PowerEdge R760xs is thoughtfully crafted to fit in your current infrastructure and deliver the right performance
features to support your demanding enterprise applications.

Just right

Strike the right balance between performance and flexibility with this air-cooled solution designed for the most popular IT applications.

- Add up to two 5th Generation Intel® Xeon® Scalable processors with up to 28 cores per socket for faster performance
- Accelerate in-memory workloads with up to 16 DDR5 RDIMMS up to 5200 MT/sec
- Improve data throughput and reduce latency with support up to 8 I/O devices
- Up to 6 PCIe slots, 1 OCP 3.0 networking slot, and 1 dedicated PERC slot

- Storage options include up to 12 x 3.5” HDDs/SSDs; or up to 16 x 2.5” HDD/SSDs, plus up to 8 x NVMe drives

Systems management and security solutions

OpenManage systems management
Tame the complexity of your IT environment with Dell Technologies OpenManage systems management portfolio which uses tools and
solutions to discover, deploy, monitor, manage, update and secure your PowerEdge infrastructure.
Intelligent automation
Integrate tools across your portfolio with PowerEdge iDRAC, OpenManage Enterprise and CloudIQ solutions that help organizations
automate their server lifecycles, optimize operations and scale efficiently.
Built-in security
Stay protected at every phase of the product lifecycle with the PowerEdge cyber resilient architecture that helps accelerate
your adoption of a Zero Trust security strategy. From the silicon root of trust, secured component verification, signed firmware and
drift detection to BIOS recovery and dynamic system lockdown, you can rest assured that your servers are secure.

Dell Technologies offers complete end-to-end services

Optimizing the IT lifecycle is vital. We have expert services for all lifecycle phases that save you time and resources,
reduce effort, and improve your IT experience.
Consulting
Consulting services give expert guidance to help you grow, optimize and transform your IT environment at your own pace and budget.
We employ a broad range of certified consultants and engineers, backed by program management teams, who can deliver deep technical expertise.
We give you the confidence that your project will be done right and on time.
Support
Gain the freedom to focus on your business transformation with the support expertise and insights Dell is known for across the globe.
Choose the right support based on the criticality of specific systems with available automated predictive analysis, collaborative
third-party assistance and a Technology Service Manager.
Deployment
ProDeploy Enterprise Suite helps you get more out of technology starting on day one. Residency Service provides ongoing transition assistance
to accelerate adoption. Trust our experts to lead deployments from basic hardware installations through planning, configuration and complex
integrations to help you achieve business outcomes today and tomorrow.
Education

Education Services offers an expansive suite of training services with multiple delivery methods, including instructor-led, self-paced online and
virtual instructor-led training. With comprehensive and flexible training programs, we make it easy to ensure your staff has the skills they need to
successfully manage and utilize your new technology to its full potential.

Looking for a reliable tower server with strong performance? We have the Dell PowerEdge T150 Tower Server available at Supertech, equipped with an Intel Xeon E-2314 processor, 8GB RAM, 1TB HDD, and 3-year warranty. Perfect for businesses seeking power and reliability!
