

Dell PowerEdge T150 Tower Server E-2314 8GB RAM 1TB HDD 400W 3 Year

Description

Dell PowerEdge T150 Tower Server E-2314 8GB RAM 1TB HDD 400W 3 Year

Features & Design

Your Innovation Engine for businesses of all sizes

The PowerEdge T150, powered by the Intel® Xeon® E-2300 processor, delivers powerful compute for common business applications and streamlines productivity.

Maximize performance and adapt to meet future growing demands.

The PowerEdge T150, powered by the Intel® Xeon® E-2300 processors, is an entry level tower server with an ideal

balance of adaptability and affordability designed to address your evolving compute demands.

- Supports 3200 MT/s DDR4 UDIMMs, up to 128GB
- Address substantial throughput improvements with PCIe Gen 4 support
- Ideal for file/print, mail/messaging, point of sale, web hosting and collaboration
- Offers enhanced thermal efficiency
- Provides improved security and faster boot time with UEFI Secure Boot

Systems Management and Security Solutions

OpenManage systems management

The Dell Technologies OpenManage systems management portfolio helps tame the complexity of your IT environment

with tools and solutions to discover, monitor, manage, update, and deploy your PowerEdge infrastructure.

Intelligent Automation

PowerEdge and OpenManage solutions integrate tools across the portfolio to help organizations automate

the server lifecycle, optimize operations, and scale efficiently.

Built-in security

PowerEdge servers are made with a cyber resilient architecture that builds in security at every phase of the product lifecycle,

from the silicon root of trust and secured component verification, to signed firmware and drift detection, to BIOS recovery.

Dell Technologies offers complete end-to-end services

Optimizing the IT lifecycle is vital. We have expert services for all lifecycle phases that save you time and resources,

reduce effort, and improve your IT experience.

Consulting

Consulting services give expert guidance to help you grow, optimize and transform your IT environment at your own pace and budget.

We employ a broad range of certified consultants and engineers, backed by program management teams,

who can deliver deep technical expertise. We give you the confidence that your project will be done right and on time.

Support

Gain the freedom to focus on your business transformation with the support expertise and insights Dell is known for across the globe.

Choose the right support based on the criticality of specific systems with available automated predictive analysis, collaborative third-party assistance and a Technology Service Manager.

Deployment

ProDeploy Enterprise Suite helps you get more out of technology starting on day one. Residency Service provides ongoing

transition assistance to accelerate adoption. Trust our experts to lead deployments from basic hardware installations

through planning, configuration and complex integrations to help you achieve business outcomes today and tomorrow.

Education

Education Services offers an expansive suite of training services with multiple delivery methods, including instructor-led,

self-paced online and virtual instructor-led training. With comprehensive and flexible training programs, we make it easy to ensure your staff has the skills they need to successfully manage and utilize your new technology to its full potential.
