Dell Optimizer for Precision

Intelligence built around you: Automatically personalise and boost the performance of your Precision and its entire ecosystem

with Dell Optimizer, an AI-based optimisation software that learns and responds to the way you work.

Personalized performance with the world’s most intelligent PCs Intelligence and machine learning elevate productivity by automating

performance features beyond your PC, across your entire ecosystem.

Intelligent Collaboration: Get the world’s most intelligent collaboration experience with smart audio conferencing, connectivity

and productivity features – all in one software.

Safe, secure and manageable: With Dell Optimiser, AI and machine learning gather and analyze data locally on the system–only

event data and service heartbeat are sent to help Dell understand if the app is working appropriately. Optimisation and data collection

follow a stringent process to ensure your privacy and security-using data to improve your PC experience continually. No personal data

is sent and used without your explicit consent.

Analytics: Generate end-user reports and analyse your system for personalised insights.

Sustainably-made

Made from sustainable materials like recycled carbon fiber and renewable castor-oil; precisions are registered EPEAT Gold.
It also ships to you in both a recycled and recyclable container.

Independent Software Vendor (ISV) certification

Precision workstations are tested to ensure the high-performance applications you rely on every day run smoothly.

Stay Secure, Be Productive

Supertech Web Store

Start secure. Stay Secure. Organisations report a 58% drop in security incidents with Windows 11 Pro devices.

Windows 11 Pro devices help you simplify your workday and improve productivity. Switch seamlessly between locations. Blaze through your to-do list with

AI-powered multitasking, features to get organised in a snap, and performance to speed demanding workloads to completion 42% faster on average.
