Regulatory Product Compliance & Environmental

Dell Technologies is committed to compliance with the laws and regulations in each country into which the company ships our products. Dell products are designed and tested to meet the appropriate worldwide standards for Product Safety, Electromagnetic Compatibility, Ergonomics, and other regulatory compulsory requirements when used for their intended purpose.

In addition, Dell products are developed with design for environment in mind. Our environmental stewardship program drives conservation of product energy consumption, develops methods to reduce or eliminate materials for disposal, prolongs product life span, and provides effective and convenient equipment recovery solutions.
