

Dell Pro 24 Plus Video Conferencing Monitor – P2424HEB

Description

Dell Pro 24 Plus Video Conferencing Monitor – P2424HEB

Features & Design

Connect like you're there with the Dell Pro 24 Monitor, designed for seamless video conferencing and enhanced productivity.

Effortless collaboration

Powerful webcam: Take center stage with a 2K QHD webcam that packs a punch. The large Sony STARVIS™ sensor is 29.5% larger than the previous model,

takes in substantial light to give you vibrant picture clarity and a vivid image.

Look great in low light: Temporal (3D) and Spatial (2D) Noise Reduction automatically eliminates motion blur and grainy images in low light,

while AI Auto Framing keeps you in the middle of the frame even as you move around.

Loud and clear: Collaborate like you're there with built-in, dual echo cancellation mics and dual 5W speakers,

strategically positioned at the top of the monitor for an immersive audio experience.

Interaction secured: The manual webcam shutter and convenient microphone mute button on this Zoom-certified monitor helps ensure that you're only

communicating what you want to share, when you want to share it.

Easier connections: Launch Teams meetings effortlessly with the quick access touch control

on this certified for Microsoft Teams monitor.

Seamless access

Get to work fast with Dell Express Sign-in, featuring a proximity sensor that detects your presence when you are close and uses Windows Hello™ to automatically log you in. When you walk away, it locks your system for increased security.

Comfort is key

Tilt, swivel, pivot and adjust the height of your monitor up to a maximum of 150 mm.

Your productivity hub

This monitor supports multi-OS environments.

Connect to productivity: With wired connectivity options like RJ45 and USB-C®,

your monitor delivers reliable Ethernet, power, audio and video—all in a clutter-free setup.

The power of USB-C: Get up to 90W of power delivery via USB-C and charge your laptop (even when the monitor is off)

with the Always On Power Delivery feature. This single-cable solution also reduces cable clutter and transmits power, data and audio—all at once.

Improved Dell Display Manager

Easy management. Next-level productivity.

Improved multitasking: Organize your screen with Easy Arrange and save profiles with Easy Arrange Memory.

Easy navigation: Share a single keyboard, mouse and monitor between multiple PCs with USB KVM wizard. Quickly switch between PCs with the quick-access menu or hot keys.

Dell Peripheral Manager

Design how they see you: Dell Peripheral Manager offers an amazing range of features like HDR, AI Auto Framing, different Field of Views and Presets – allowing you to easily customize settings based on your preferences.

Green thinking. For today and tomorrow.

Environmental standards: Dell monitor uses 85% PCR (Post-consumer Recyclable) plastic in the design, 90% recycled aluminum,

and meets the latest environmental standards such as EnergyStar®, and TCO Certified Edge, and is EPEAT® Gold registered.

Eco-conscious packaging: Dell monitors ship in boxes made with 100% renewable content that is also 100% recyclable.
