HP EliteBook 8 G2i Performance and Multitasking

The 32GB memory configuration provides room to work across business applications, spreadsheets, browser tabs and communication tools. Whether you are preparing reports or managing several tasks, this configuration supports a productive daily workflow.

Responsive SSD Storage

The 512GB SSD provides storage for applications, documents and working files, with responsive access to your everyday software and data.

A 14-Inch Business Laptop for Everyday Work

The 14-inch display offers a compact workspace for professionals moving between their desk, meeting rooms and other work locations.

Windows 11 Pro

Preinstalled Windows 11 Pro provides business-oriented security and management capabilities. Some features require compatible hardware, configuration or additional services.
