

HPE ProLiant ML350 Gen10 3206R 1P 16GB-R S100i 4LFF 1x500W RPS Server (without bezel)

Description

HPE ProLiant ML350 Gen10 3206R 1P 16GB-R S100i 4LFF 1x500W RPS Server

Do you need a robust server for your SMB and remote offices? HPE ML350 Gen10 Intel Server delivers a secure dual-socket tower server with performance, expandability, and proven reliability making it the choice for expanding SMBs, remote offices of larger businesses, and enterprise data centers. HPE ML350 Gen10 Intel Server leverages the Intel® Xeon® Scalable processors with up to 71%¹ performance gain and 27% increase in cores, along with the 2933 MT/s or 2666 MT/s HPE DDR4 SmartMemory supports up to 3.0 TB and 11% faster than 2400 MT/s. The shorter re-designed rackable chassis with multiple upgrade options provides flexibility that can expand as your business needs grow. It supports 12Gb/s SAS, NVMe SSD, embedded 4x1GbE NIC with a broad range of graphics and options. Supported by the HPE Pointnext industry-leading service organization, the HPE ProLiant ML350 Gen10 server helps you transform to a digital business with more agility and all within your limited IT budget.
