

HPE SN1100Q 16Gb Dual Port Fibre Channel Host Bus Adapter

Description

HPE SN1100Q 16Gb Dual Port Fibre Channel Host Bus Adapter

The **HPE SN1100Q 16Gb Fibre Channel HBA** delivers high-performance dual-port connectivity for enterprise storage environments. Designed to optimize data throughput and reliability, the **HPE SN1100Q 16Gb Fibre Channel HBA** is ideal for virtualized servers, SANs, and mission-critical workloads.

Looking to elevate your storage infrastructure with robust Fibre Channel performance? The [HPE MSA 2062 16Gb Fibre Channel SFF Storage – R0Q80B](#) delivers high-speed, scalable storage ideal for virtualized environments and enterprise workloads.
