Description

Lenovo ThinkPad T14s Gen 3 Intel® Core i7-1255U 16GB RAM 512GB SSD 14" WUXGA Windows 10 Pro 1 Year – 21BR0069AU

Now, you really can work from anywhere

The slim, light ThinkPad T14s Gen 3 combines heavyweight power with true mobility. It's powered by Intel® vPro®, an Intel® Evo™ design based on 12th Gen Intel® Core™ i7 processors, and Intel® Iris® Xe graphics. It has ample lightning-fast next-gen memory and storage, enabling you to speed through any task. Now, you can experience enterprise-level performance wherever you're working.

Enhances your productivity & downtime

Choose from many display options, including certified Eyesafe® low blue-light technology. Each display has an expansive 16:10 aspect ratio, offering more screen. And with the optional FHD + IR webcam, Dolby Audio™ speaker system with Dolby Voice® as standard, videoconferencing is more immersive.

Designed for work & life on the go

The ThinkPad T14s Gen 3 has all you need to do more remotely. It can run for a day on a single charge, and when the battery does run low, it can be rapidly recharged. There are many ports, including Intel® Thunderbolt™ 4 and HDMI, plus blazing-fast connectivity options, including Intel® WiFi 6E*. This laptop also has a backlit keyboard with TrackPoint and TrackPad.

Smarter security, from the start

This business laptop has a Power-On touch fingerprint reader for you to log in quickly securely. It also has ThinkShield, a comprehensive portfolio of end-to-end protection and customizable security features, including advanced data encryption. And with PrivacyGuard, you can stop shoulder-surfers from seeing what's on your screen.

Partially made from recycled materials

Even with all its productivity- and creativity-enhancing features, this ThinkPad was designed with recycling in mind. We used recycled post-consumer content (PCC), such as plastic and natural materials, in various components, including 97% in the speaker enclosure, 97% in the battery compartment, and 97% in the power adapter. Plus, the packaging uses recycled and/or sustainably forested materials and recycled PCC cardboard cushioning.

Extremely reliable & durable

We use the US Department of Defense's MIL-STD 810H standards to create a balance of reliability and durability for our ThinkPad laptops. Measured against 12 stringent standards and more than 200 quality checks, they can run in the harshest of conditions, from the Arctic wilderness to desert dust storms. Our tests also include temperature, pressure, humidity, vibration, and more.
