Stay on top of your game

When the heat’s on, you need a tool you can trust. Take the space-saving ThinkCentre Neo 30a all-in-one PC, for example. With its powerful 12th Gen Intel® Core™ processors and integrated graphics, plus heaps of memory and storage, it can handle anything, anytime—from number-crunching to hi-res design and video-editing. Plus, it gives you more room to work with.

Designed to be creative & productive

When it comes to visuals, the ThinkCentre Neo 30a simply excels. The 27? FHD almost-borderless display gives you superb clarity and a stunning array of colors, as well amazing brightness, a huge 90% screen-to-body-ratio, and seamless 60Hz refresh rates. Whether you’re working on a design or finalizing an important presentation, this all-in-one PC is sure to impress.

Supertech Web Store

A breeze to manage & use

For IT teams and end-users alike, the ThinkCentre Neo 30a is a joy to work with. Smart features like Lenovo Vantage mean that this all-in-one PC is ready to go right out of the box. It’s also a cinch to manage, update, and secure—even remotely. And thanks to its Alexa-based Voice Assist function, being organized, informed, and entertained has never been easier.

It pays to be secure

The ThinkCentre Neo 30a is built with security in mind. Fully compliant with ThinkShield, a customizable hardware and software security platform designed to thwart criminal activity, its firmware Trusted Platform Module (fTPM) encrypts your data and passwords. There’s also an optional Smart Cable Clip to secure devices, such as a keyboard and mouse, by locking their cables to the PC.

Work smarter, not harder

For employees to thrive, the more creative and collaborative the environment, the better. The ThinkCentre Neo 30a all-in-one has an array of smart and AI-based features to make online meetings a cinch. This includes Lenovo Smart Appearance’s enhanced camera effects for video conferencing and AI Meeting Manager’s real-time notetaking and translation functionality.

Supertech Web Store

User-friendly, eco-friendly

As well as being easy to set up and giving you a clutter-free desk, the ThinkCentre Neo 30a has a convenient slot for your phone, so you don’t miss any key messages. It also has one eye on the planet. While the chassis and packaging is made primarily from post-consumer recycled content, this all-in-one also comes with ENERGY STAR® 8.0 and EPEAT® Silver certifications.
