

Lenovo L15 15.6-inch IPS FHD 60Hz USB-C Portable Monitor – 66E4UAC1WL

Description

Lenovo L15 15.6-inch IPS FHD 60Hz USB-C Portable Monitor – 66E4UAC1WL

The **Lenovo L15 Portable Monitor** is a high-performance 15.6-inch IPS FHD display designed for portability and versatility. The **Lenovo L15 Portable Monitor** delivers sharp Full HD visuals with a 60Hz refresh rate, perfect for work, gaming, or multimedia on the go. Its USB-C connectivity allows both power and display through a single cable, making it ideal for professionals and travelers.

Lightweight and compact, the **Lenovo L15 Portable Monitor** easily fits in your laptop bag while maintaining IPS-level color accuracy and vibrant visuals. Perfect for dual-screen setups, presentations, or on-the-go productivity, this portable monitor offers convenience, performance, and style. Available at Supertech UAE, the Lenovo L15 ensures reliable performance wherever you need it.

One Display for Everyone

The FHD 1920 x 1080 resolution makes your display experience, whether watching videos or browsing

webpages, a pleasurable one. The In-Plane Switching (IPS) panel offers impressive screen clarity and wide viewing angles of up to 178°, which make for distortion free images no matter where you place it. The 3-side narrow bezels look premium and provide wider screen real-estate for optimum use, so you can view content without distractions.

Connectivity with Convenience

The L15 comes equipped with two USB Type-C2 ports, which have data, power, audio, and video transfer capabilities—a single-cable solution for your connectivity needs. The USB Type-C port supports power pass-through, up to 65W, to charge your notebook or smartphone and power the L15 simultaneously. This keeps your study corner clear of troublesome snaking cables, offering a clutter-free desk space. Exclusive Lenovo Artery software³ provides advanced and assistive tools to help you seamlessly manage and control your L15 monitor and other devices.

Stylish and Purposeful

Sleek design—enhanced by the raven black narrow bezel design—makes for wider screen space in a premium package. Ultra-slim build with height adjustment lets you carry it with ease and position the display at eye level atop a desk so you can enjoy multimedia or engage in learning anytime, anywhere. Harmful blue light emissions are reduced with the L15's TÜV Rheinland Low Blue Light technology so users can comfortably binge content or get work done without eye strain.
