

Lenovo L27e-40 FHD Monitor 27 inch – 67ACKAC4AE

Description

Lenovo L27e-40 FHD Monitor 27 inch – 67ACKAC4AE

Overview

Lenovo's L27e-40 Monitor is primed for productivity and crafted to entertain. Don't miss a thing on excel sheets and other work documents on the expansive 27" FHD screen. With its wide viewing angles, the VA panel lets you easily collaborate with colleagues or enjoy movies with your friends and family. The 3-side NearEdgeless display design means that you get a lot more screen real estate packaged into a smaller form factor when compared to traditional 27" monitors. Working on colour-critical work is also possible, using the 72% NTSC colour space coverage of the panel. Gaming on the Lenovo L27e-40 is a great experience with its support for AMD FreeSync™1 and fast 100 Hz refresh rate. The availability of a vast selection of ports including two HDMI and a VGA allows you to connect multiple devices to your monitor, eliminating the need to remove and plug-in devices when you decide to use any other device such as a console. Keep your desk setup looking clean and minimal with the display's 7.0 mm slim head, stylish stand and cloud grey colour. Get rid of all cable clutter using the cable management and phone stand that is built into the monitor's base and stand. Adjusting your screen's basic and advanced settings is now more accessible with Lenovo's Artery Software2. Your eyes stay protected from strain and harmful blue light while you work or play, thanks to the Eyesafe 2.0 and TÜV Hardware Low Blue Light certifications. The use of 85% recycled resin in the product plastic makes this monitor more environmentally friendly. The Lenovo L27e-40 Monitor is made

to perfectly complement both your workflow and your work breaks.
