The go-getter display

The Lenovo C27-40 Monitor is your new best friend. The 27-inch 3-side NearEdgeless VA panel offers a bigger canvas for you to experience every detail.

The FHD (1920 x 1080) resolution with 178°/178° wide-viewing angle makes visuals and images vivid

and consistent from every angle. The 72% NTSC color

gamut brings to life every shade in the images. Enjoy the clarity and smoothness of every image and movement on screen.

Good vision with good visuals

The Lenovo C27-40 Monitor’s AMD FreeSync™ technology* prevents freezes or stutters during immersive gameplay or intensive work. It is aided by the

monitor’s 75Hz refresh rate and 5ms response time. Enjoy smooth visual transitions on the screen that syncs refresh rates with frame rates. Launch a

gaming marathon or binge-watch your favorite web series while the monitor’s Natural Low Blue Light technology shields your eyes from harmful blue light.

A setup that won’t make you get up

Easily connect the monitor with your laptop and headphones/speakers with the HDMI, VGA, and audio-out ports. The monitor has the flexibility to tilt up

and down so you get a comfortable look at the screen. You can also VESA Mount it to further adjust your viewing angles and get more desk space to set

up your work or gaming station. The smart cable management system makes it hassle-free to manage cables and keep them out of view.
