Description

Lenovo ThinkBook 15 G2 ITL Intel® Core i5-1135G7 4GB RAM 256GB SSD 15.6" FHD Non-backlit, Arabic 1 Year – 20VE007WAX

Power your productivity

Enjoy heavy-duty performance on the ThinkBook 15 Gen 2 laptop, thanks to advanced 11th Gen Intel® Core™ processors enhanced by AI technology. With up to 512GB SSD storage and up to 16GB memory, this business laptop equips you for even the most intensive work. Thanks to Intelligent Cooling, you won't have to worry about it overheating.

Rich visuals

The ThinkBook 15 Gen 2's display offers FHD resolution and optional 100% sRGB color gamut for lifelike visuals with accurate color and contrast. It's built to be flicker-free and supports TÜV Rheinland Low Blue Light. Choose a touchscreen model to enhance your user experience with intuitive navigation and interaction.

Streamlined & stylish

The Lenovo ThinkBook 15 Gen 2 laptop lets you stand out, thanks to its elegant, professional dual-tone design. Its sleek bezels deliver an 88% screen-to-body ratio. At just 18.9 mm / 0.74 inches and 1.7 kg / 3.75 lbs it's thin and light enough to take anywhere.

Smarter teleconferencing

The ThinkBook 15 Gen 2 helps you slash through the hassles and inconveniences associated with remote work. Choose a model with the innovative Versa Bay* for a big convenience: This small drawer, housed within the ThinkBook 15 itself, contains a pair of Lenovo bespoke Bluetooth earbuds with dual-array mics and AI-based Whisper Voice noise cancellation. Conference anywhere—you'll always have your earbuds handy.

Select models

Connect anywhere

Speedy WiFi 6 enables faster downloads, increased bandwidth, lower latency, and seamless conferencing. And connecting to peripherals is hassle-free, thanks to a generous selection of ports including Thunderbolt™ 4, USB-C 3.2 Gen 2, HDMI, USB 3.2 Gen 1, and more.

Secure, safe & smart

The ThinkBook 15 Gen 2 keeps your business data—and your personal privacy—safe. Hardware and firmware features like Trusted Platform Module (TPM), I/O port access control, secure wipe, and more. A webcam privacy shutter lets you physically block the camera when you're not using it. Smart features complete the experience: Get the most out of visual content with video resolution upscaling, command your microphone with Mode Switch, and start up your Lenovo ThinkBook instantly with Flip to Boot, as well as Eye care mode, Whisper Voice and Intelligent cooling.
