Prime yourself for remote work

Propel your business forward with the 15.6" Lenovo ThinkBook 15 Gen 2 (Intel). This powerful laptop sports up to a cutting-edge 11th Gen Intel® Core™ processor and offers a range of robust storage and memory options. Smart features include optimized conferencing for seamless remote work.

Power your productivity

Enjoy heavy-duty performance on the Lenovo ThinkBook 15 Gen 2 (Intel) laptop, thanks to advanced 11th Gen Intel® Core™ processors enhanced by AI technology. With up to 2TB in dual-SSD storage and up to 24GB memory, this business laptop equips you for even the most intensive work. And thanks to Intelligent Cooling, you won't have to worry about it overheating.

Rich visuals

The Lenovo ThinkBook 15 Gen 2's display offers FHD resolution and optional 100% sRGB color gamut for lifelike visuals with accurate color and contrast. It's built to be flicker-free and supports TÜV Rheinland Low Blue Light on select models. Choose a touchscreen model to enhance your user

experience with intuitive navigation and interaction.

Streamlined & stylish

The Lenovo ThinkBook 15 Gen 2 (Intel) lets you and your employees stand out, thanks to its elegant, professional dual-tone design. Its sleek bezels deliver an 88% screen-to-body ratio. And at just 18.9mm and 1.7kg, it's thin and light enough to take anywhere.

Connect anywhere

Speedy WiFi 6 enables faster downloads, increased bandwidth, lower latency, and seamless conferencing. And connecting to peripherals is hassle-free, thanks to a generous selection of ports including Thunderbolt™ 4, USB-C, HDMI, USB 3.2 Gen 1, and more.

Secure, safe & smart

The Lenovo ThinkBook 15 Gen 2 (Intel) keeps your business data—and your personal privacy—safe. Hardware and firmware features like Trusted Platform Module (TPM), I/O port access control, secure wipe, and more. A webcam privacy shutter lets you physically block the camera when you're not using it. And smart features complete the experience: Get the most out of visual content with video resolution upscaling, command your microphone with predetermined modes, and start up your Lenovo ThinkBook instantly just by opening the top cover.

Buy this PC and get a Free upgrade to Windows 11 when available. ¹

¹Upgrade rollout plan is being finalized and is scheduled to begin late in 2021 and continue into 2022. Specific timing will vary by device. Certain features require specific hardware, see

***Features shown below may not be available on all products. Please refer to product details page for specific product features.**

***Image is for illustrative purposes. Actual touchpad has four haptic sensors.**
