Description

Lenovo ThinkBook 16 Gen 6 Intel Core i5-13420H 8GB RAM 512GB SSD DOS 16? WUXGA English 1 year – 21KH00RRAK

Big inside & out

Want a business laptop that's big on performance and improves productivity? The Lenovo ThinkBook 16 Gen 6 laptop offers

a state-of-the-art upgrade to your daily tasks. Featuring 13th Gen Intel® Core™ processors, this device redefines mobility at work.

The superior bandwidth of dual-channel memory configurations means faster data transfer speeds and improved performance.

Ample storage, smart security, and manageability features also help take your daily workflow to new heights.

Security that's got your back — and front

Biometrics provide extra protection on the ThinkBook 16 Gen 6 laptop — from the fingerprint reader integrated with the power button

to the facial recognition software that works with the optional infrared (IR) camera. ThinkShield, our comprehensive suite of security solutions,

ensures your system is protected. Trusted Platform Module (TPM) firmware encrypts your data, and a self-healing BIOS restores

critical info should your device ever become corrupted.

Up your collaboration game

With the integrated camera, the ThinkBook 16 Gen 6 laptop makes video calling a cinch. Rich, clear images on an even

bigger screen (given the 16:10 aspect ratio) will make you feel like you're in the same room as your colleagues.

With AI-based noise cancellation and Dolby Audio™, no more background noises — people will hear you loud and clear,

the same way you'll hear them. What's more, when you don't want to be on camera, the webcam privacy shutter ensures you stay out of sight.

Designed for durability

We use the US Department of Defense's MIL-STD 810H standards to create a balance of reliability and durability for our ThinkBook laptops.

We test against 26 procedures to ensure they run in extreme conditions. These tests cover harsh variables like Arctic wilderness and

desert dust storms, including temperature, pressure, humidity, vibration, and more.

Looks good, feels great

Along with the sleek look and feel of the Arctic Grey aluminum chassis, the ThinkBook 16 Gen 6 laptop boasts an upgraded ergonomically redesigned keyboard. The keys are larger than previous generations and include a concave cap that curves to your fingertips — plus, the keys are made from 50% post-consumer recycled plastic. The expanded touchpad feels smooth and easy. And an F9 smart key can be customized to open any frequently used app — or keep the default, which links directly to our Services page.
