English Windows 10 Pro 3 Year – 11K30029UM

Description

**Lenovo ThinkCentre M70a Gen 2 Intel Core i7-11700 8GB RAM 1TB HDD English
Windows 10 Pro 3 Year – 11K30029UM**

Unlock business productivity with the **Lenovo ThinkCentre M70a i7**, a powerful **All-in-One Gen 2 desktop** built for performance and efficiency. Powered by an **Intel Core i7-11700 processor**, paired with **8GB DDR4 RAM** and **1TB HDD**, this machine is perfect for handling demanding workloads in office settings.

Good to go, from the get-go

Whatever the task, the ThinkCentre M70a is more than ready. Equipped with up to 10th Gen Intel® Core™ i9 processors, plus plenty of memory and storage, it zips through everything. And with next-gen ports enabling lightning-quick data transfer speeds, your productivity levels are set to soar.

Ergonomics at work

A lot of thought went into the M70a. The stand, for instance, was designed to take up less desk space and for cables to be tucked in at the back, resulting in a neater, cleaner works space. There are even designated spaces for a keyboard and smartphone when they're not in use. A clutter-free desk is no longer wishful thinking.

Secure from the inside out

Each ThinkCentre is designed with ThinkShield, comprehensive end-to-end protection combining industry-leading hardware, software, services, and processes.

The ThinkShield features on the M70a include Trusted Platform Module (TPM) technology to safeguard your data and passwords, system alerts if someone is looking at the screen over your shoulder, and Smart USB protection to thwart rogue USB access. There's also a Kensington lock slot to physically secure your PC..

What's more, with ThinkShield you can choose additional features from our portfolio of cutting-edge

security offerings—before you unbox your M70a. For more information, visit <https://solutions.lenovo.com/pc-solutions/thinkshield/>.

A better way to work, even from home

While laptops offer portability, a fixed screen and keyboard can limit your viewing and typing experience. The M70a, however, lets you have the best of both worlds. An adjustable display with low blue-light and flicker-free features for more comfortable viewing, and the freedom to have the keyboard where it suits you. There are also noise-canceling microphones, ideal when taking calls at home.

Tried and tested

Reliability is the M70a's middle name. It meets ten military-grade durability requirements, including for altitude and humidity. It has also passed 200+ checks to ensure that it can run in extreme conditions, from the freezing Arctic wilderness to desert heat and dust.
