Monitor, wireless keyboard, & mouse sold separately.

Security inside & out

Every ThinkCentre lets you innovate fearlessly with the reinforced security of ThinkShield, our comprehensive end-to-end security solution.

Combining industry-leading hardware, software, and services, it's designed to safeguard your data,

ideas, and business. This Tiny desktop

includes a self-healing BIOS, a Trusted Platform Module (TPM) to encrypt your data, and a Kensington Security Slot™ to physically secure your PC.

And when you choose the Intel vPro® platform, you have additional multilayer, hardware-based protection.

As versatile as it is powerful

The ThinkCentre M70q Gen 4 Tiny (Intel) is designed with people — and shrinking workspaces — in mind. Its sleek, modern design and

compact 1L form allow this Tiny PC to fit seamlessly anywhere. It can sit on a desk, be mounted on a wall or out of the way, or slid snugly

into the back of a ThinkCentre Tiny-in-One (TIO) monitor. It can also support up to four displays and its ports offer fast charging and quick data sharing.

It won’t let you down

Our dedication to constantly improving product quality means rigorous testing for durability and reliability. In addition to our extensive

in-house testing for real-world challenges, the ThinkCentre M70q Gen 4 Tiny desktop is tested against the US Department of Defense’s

MIL-STD 810H standards. These tests cover harsh variables like the Arctic wilderness to desert dust storms. It also meets stringent tests for

temperature, pressure, humidity, vibration, and more.

Less impactful on the planet & users

The ThinkCentre M70q Gen 4 Tiny PC also meets various global standards for energy-efficiency and health & safety, including ENERGY STAR® 8.0

and EPEAT® Gold. Additionally, it's been low-noise certified by TÜV Rheinland. It also comes with the option of ThinkCentre Tiny Dust Shield,

which is easy to remove, wash, and replace, and helps to prolong the life of your PC.
