

Lenovo ThinkCentre M70s Gen 6 Small Form Factor PC, Intel® Core Ultra 7 265, Intel® Graphics, 8GB RAM, 512GB SSD, 1 Year – 12YQ000BGR

Description

Lenovo ThinkCentre M70s Gen 6 Small Form Factor PC, Intel® Core Ultra 7 265, Intel® Graphics, 8GB RAM, 512GB SSD, 1 Year – 12YQ000BGR

The **Lenovo ThinkCentre M70s Gen6** Small Form Factor desktop is a powerful business PC designed for office and professional environments. Powered by the **Intel Core Ultra 7 265 processor**, 8GB RAM, and a 512GB SSD, the **Lenovo ThinkCentre M70s Gen6** delivers fast performance, reliable multitasking, and compact design ideal for modern workspaces.

Drives Business Performance & Productivity

Powered by Intel® Core™ Ultra processors, the ThinkCentre M70s Gen 6 small form factor (SFF) PC is ideal for running complex software, multitasking with multiple applications, or streaming high-definition content. Optional Intel vPro® technology enhances security and manageability that IT professionals will love.

ENHANCED PRODUCTIVITY & CREATIVITY

AI Support for Efficient Workflow

Lenovo AI Now* is an AI assistant enhancing productivity and creativity, delivering personalized experiences. It leverages AI features like knowledge management, document summarization, and device control, prioritizing data privacy, and security.

COMPACT POWERHOUSE FOR CREATIVITY

Effortless Multitasking, Exceptional Graphics

Power your creativity with graphics choices. Go with the optional NVIDIA® GeForce RTX® GPU for high-quality visual computing for video/graphic tasks, streamlined multitasking, and balanced performance.

EXPAND YOUR VISUAL SPACE

Seamlessly Connect to External Monitors

Take multitasking to the next level with triple display capability — 2 display ports and 1 HDMI® port. Experience brilliant visual clarity — spread out your projects, track multiple activities, and boost efficiency with a setup that keeps everything in view and at your fingertips.
