Features

Performance you can count on

Incredibly powerful and responsive, the ThinkCentre Neo 30a (24? Intel) All-in-One combines the latest 12th Gen Intel® Core™ processors with integrated graphics and cutting-edge memory. This space-saving PC zips through everything, from multitasking to crunching datasets and debugging code. Whether you're working onsite or remotely, do everything at full throttle – without breaking sweat.

Easier on the eye & the planet

This stunning 23.8? FHD display with wide-angle viewing delivers brilliant visuals, amazing colors, and superb clarity. Offering a clutter-free desk, this all-in-one ThinkCentre is quick to set up anywhere. And being made from 65% post-consumer recycled content and ocean bound plastic for packaging, it's better for the planet, too.

Built-in flexibility & security

The ThinkCentre Neo 30a is designed to be both flexible and secure. It has a range of ports, including USB 3.2, for all your PC peripherals and a Smart Cable Clip to protect against theft. It is also compliant with ThinkShield, customizable end-to-end security solutions to keep your device safe and safeguard your sensitive data.

A smarter way to meet online

With AI Meeting Manager and its array of smart tools, including Translator, Voice-to-Text, Subtitles, and Meeting Notes Editor, managing and attending online meetings is easier than ever. While background noises are filtered out, attendees’ voices are picked up clearly from any angle. In addition, your AIO supports Alexa Show Mode so it can become a voice-activated smart display instantly.

Calm, cool, & totally collected

It always pays to be cool under pressure. Thanks to our Intelligent Cooling Engine (ICE) 5.0, the

ThinkCentre Neo 30a does just that. It gives you optimal performance by intuitively controlling internal temperatures and power consumption. It has different modes for different workplaces, from the office to a factory or restaurant.
