

Lenovo ThinkCentre Neo 50s SFF Desktop Gen 3 Intel® Core™ i5-12400 8GB RAM, 256GB SSD English/Arabic Keyboard 1 Year – 11T000FJGP

Description

Lenovo ThinkCentre neo 50s Gen 3 Intel Core i5 12400 8GB 256GB SSD English/Arabic Keyboard 1 Year – 11T000FJGP

Features

Seize the day, every day

Tap into the truly responsive, power-packed performance of the ThinkCentre neo 50s Gen 3 Intel. Featuring the latest 12th Gen Intel® vPro Core™ processor, backed by up to 64GB DDR4 memory and ample HDD and SSD storage, this small form factor desktop will zip through any task, boosting productivity levels in next to no time.

Monitor, keyboard, and mouse sold separately.

Green, the new black

Paint free and made from recycled content (85% post-consumer content), this space-saving ThinkCentre desktop is delivered in packaging from ocean-bound plastics, extending its sustainability and durability. It also arrives with a number of other green credentials, including Energy Star® 8.0 and EPEAT® Gold.

It pays to be well connected

A breeze to set up anywhere, the ThinkCentre neo 50s Gen 3 Intel is designed to bring colleagues close together, wherever they are working from. It's equipped with high-speed USB ports, including USB 3.2, plus VGA, DisplayPort, and HDMI 2.0 ports. So, whether it's connecting to other devices or collaborating online, everything's smooth and fast.

Keeps cool, whatever you throw at it

With our Intelligent Cooling Engine (ICE) 5.0, system performance is optimised based on your workload, enabling superb energy efficiency with over 40kwh per unit per year in power savings. Additionally, the ThinkCentre neo 50s Gen 3 Intel has three optimal modes for different workplaces, whether it's an office, restaurant, or factory.

Expandable & adaptable

Easy to upgrade and expand, the ThinkCentre neo 50s Gen 3 Intel can be customised to meet your computing needs today and tomorrow. It has the space, including PCIe slots, for you to easily add extra graphics or storage. Or, with an optional Smart Cable, you can simply connect to another PC and leverage the additional storage capacity as you work seamlessly between two devices.

Secure, from the inside out

Engineered with safety in mind, ThinkCentre neo 50s Gen 3 Intel has a dTPM 2.0 chip to encrypt your data and is integrated with ThinkShield, customisable end-to-end security for your PC and sensitive files. You can also use a Smart Cable Clip (optional), padlock loop, or Kensington™ lock slot to thwart physical theft, and Smart USB Protection to prevent data transfers via USB devices.

***Features shown below may not be available on all products. Please refer to product details page for specific product features.**

***Image is for illustrative purposes. Actual touchpad has four haptic sensors.**
