Powerful Desktop for Every Business

To meet the needs of modern workspaces, the ThinkCentre Neo 50t Gen 5 Tower is a powerful 13.6L desktop with a professional design. It is ideal for manufacturing, product design, and other business sectors — driven by enterprise-grade performance, boasting industry-leading connectivity and collaboration options to keep your productivity at peak.

Cool & Quiet Performance

Supertech Web Store

Experience adaptive cooling with Intelligent Cooling Engine (ICE) 7.0 to extend the lifecycle of the PC. Keep the system cooler, boost performance, and switch seamlessly between modes. Also, the ThinkCentre Neo 50t Gen 5 Tower is TÜV Ultra Low Noise-certified, ensuring a quieter workspace — letting you focus wherever needed without distractions.

Mindful About Tomorrow

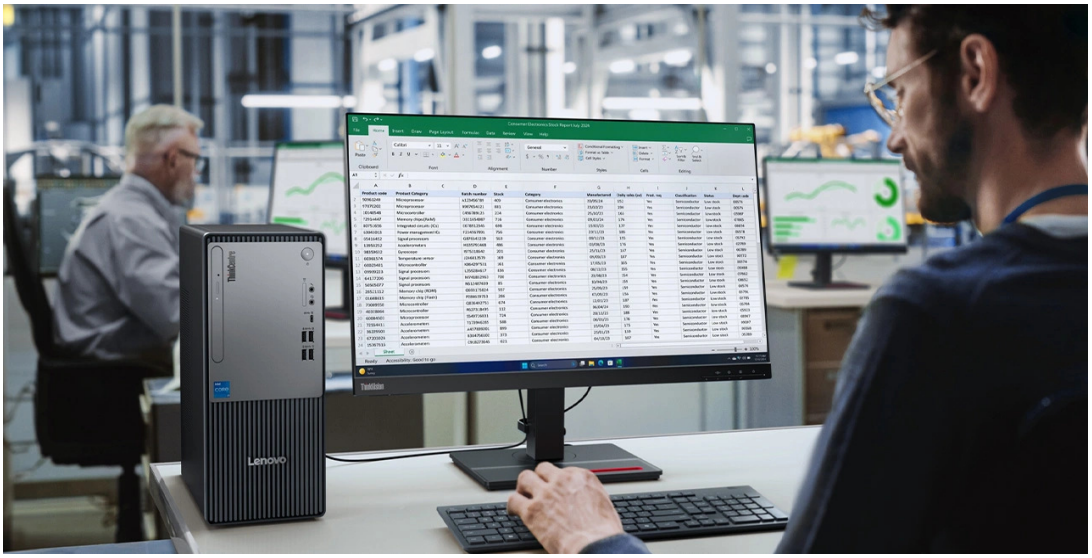

The chassis uses 85% post-consumer content recycled acrylonitrile butadiene styrene plastics. The packaging cushion has 90% post-industry content recycled expanded polyethylene and 30% ocean-bound plastic in the bag with a Forest Stewardship Council® (FSC) certified carton. Plus, ENERGY STAR® 8.0 and TCO 9.0 ratings minimize energy costs.

Cross-Device Interaction for Multitasking

Supertech Web Store

Take device collaboration to the next level with the Smart Connect app — sync presentations effortlessly across PCs, mobile phones, and tablets during meetings. Link your desktop to multiple peripherals via different ports, optional Smart Cable, and expansion slots like a 3-in-1 card reader, serial, parallel, PS2, etc. for enhanced operations.

Tap Into Limitless Potential

Boost your business performance with up to 14th Gen Intel® Core™ processor — driving productivity and innovation beyond expectations. Plus, the ThinkCentre Neo 50t Gen 5 Tower powers through complex analyses and creative projects with vast memory, multiple storage options, and an optional

Intel® Arc™ graphics processing unit (GPU).

Secured with ThinkShield & More

Supertech Web Store

ThinkShield security delivers hardware and software solutions, including discrete Trusted Platform Module (dTPM) 2.0 to safeguard data, and BIOS-based Smart USB protection to prevent unauthorized access via peripherals. Keep physical theft at bay with Kensington Security Slot™, padlock loop, optional cable lock, or an intrusion switch cable.
