AI Dedicated Processor With Power Efficiency.

With Intel® Core™ Ultra processors, the Lenovo ThinkPad E14 Gen 6 laptop brings AI-assisted productivity to the forefront. Enjoy optimized performance with dedicated AI engines, including the low-power neural processing unit (NPU) that enables you to do much more on battery power. Multitask away, even when unplugged — turn on auto-framing, background blur, and low-light enhancement for your online meetings. Forget the usual constraints of running on battery and enjoy the extra push to power through anything that comes your way!

No Mouse Required

Supertech Web Store

The ThinkPad E14 Gen 6 laptop features a large TrackPad for easy navigation. Or, you can navigate with the TrackPoint — either way, when you're on the go you can leave your mouse behind. What's more, with a double tap of the little red nub, the ThinkPad TrackPoint Quick Menu opens to optimize audio-visuals, set alerts against muting, and even take notes with the Dictation Toolbar for handy speech-to-text transcription. You can even customize the settings!

Sight & Sound Sensation

The ThinkPad E14 Gen 6 laptop is equipped with stunning display options, including a touchscreen and Eyesafe® certification for low blue light emissions. In addition, you'll enjoy a sublime sound experience with the advanced Audio by Harman® and Dolby Atmos® whether you're listening to your favorite media or dialing into crystal-clear audio during conference calls. Keep your meetings in focus and your collaboration to a maximum.

ThinkPads: Tougher Than Your Monday Mornings

Supertech Web Store

We use the US Department of Defense’s MIL-STD 810H to create a balance of reliability and durability for all of our ThinkPad laptops. Meeting or exceeding 12 standards, 26 procedures, and 200+ quality checks ensure that these devices run in extreme conditions, including harsh variables like Arctic wilderness, desert dust storms, extreme temps, pressure, humidity, vibration, and more.

Eco-Friendly Packaging & Recycled Components

Even with all its productivity and creativity-enhancing features, the ThinkPad E14 Gen 6 laptop was designed with recycling front of mind. We used recycled post-consumer content (PCC) in various components, including an impressive 90% PCC recycled plastic used for the AC adaptor, 30% PCC for the speaker enclosure, and 25% PCC for the battery enclosure. Plus, the packaging is entirely devoid of plastic and is 100% recyclable — it's even earned certification from the Forest Stewardship Council®, helping you make a responsible choice.

Security You Can Count On

Biometrics provides extra protection on the ThinkPad E14 Gen 6 laptop — from the fingerprint reader integrated with the power button to the facial recognition software that works with the IR camera to help you log in securely. Our robust suite of security solutions, ThinkShield, includes discrete Trusted Platform Module (dTPM) 2.0 that encrypts vital data. Plus, AI-enabled Intel® Threat Detection Technology proactively guards against menaces such as ransomware and cryptojacking. With ThinkPad, rest assured, that your security and asset protection are our utmost priority.
