Innovate freely, anywhere

Perfect for high performance on the go, the ThinkPad P14s Gen 3 mobile workstation gives entry-level professionals, educators, and students alike the ability to innovate freely, anywhere. ISV-certified*, with up to 12th Gen Intel® Core™ i7 processors and a choice of NVIDIA® discrete graphics or integrated Intel® graphics, it powers through applications like AutoCAD®, Revit®, and SolidWorks® without missing a beat.

Be inspired, from the start

Choose from multiple 14? 16:10 screen options, including touch display, X-Rite Factory Color Calibration, and low blue-light filtration technology. Everything on the ThinkPad P14s Gen 3 mobile workstation appears crisp and clean—whether you’re working inside, outside, or on the move. You can also find inspiration in a choice of chassis colors, either traditional Black or Storm Grey.

Your needs, your configuration

With up to 48GB of lightning-quick DDR4 memory and up to 2TB of next-gen PCIe Gen4 NMVe storage, the ThinkPad P14s Gen 3 can be configured to meet your exact needs. With its array of advanced ThinkShield security features and ability to meet stringent US MIL-SPEC tests for durability, ruggedness, and reliability, this mobile workstation enables you to work in almost any environment.

All you need to be connected, or not

Even with its impressive power, the ThinkPad P14s Gen 3 is our lightest mobile workstation yet, weighing just 1.24kg / 2.73lbs. It offers robust connectivity, too, including two Intel® Thunderbolt™ 4 ports for incredibly fast file transfers, plus HDMI and USB-A 3.2. It also comes with a webcam privacy shutter, so you can physically turn the FHD camera on and off.

Let the IT buck stop with us

Consider a more ?exible approach to IT procurement, Lenovo Device as a Service (DaaS). Designed to free up your time and capital, it combines device management and configuration, service support, and software into fixed monthly payments. And by taking care of every phase of the device lifecycle enables your IT resources to focus on what they do best.

We’ve got your back

When you spend hours on business-critical projects, it’s essential to know that all your hard work and efforts are backed by the best. That’s why the ThinkPad P14s Gen 3 comes with ThinkShield—our comprehensive portfolio of end-to-end protection and customizable security features, including advanced data encryption and biometric technology and a screen privacy filter.
