Description

**Lenovo ThinkPad P16 Intel Core i9-12950HX 64GB RAM 2TB SSD 12GB
RTXA3000 16? WUXGA Windows 11 pro – 21D6S15W00**

Features

The high-end mobile workstation at its best

Lenovo breaks new ground with the ThinkPad P16 (16? Intel) mobile workstation, a portable powerhouse for the ultimate professional.

It's designed to deliver the highest levels of on-the-go performance, with up to 12th Gen Intel® Core™ HX-class processors and up to NVIDIA RTX™ graphics.

Plus, it's got a fresh appearance and style that you'll love.

Next-level performance & productivity

Step out of the office and do more—without sacrifice. The ThinkPad P16 offers the best of everything in a standout, 16? design. Get yours with up

to 8TB of super-fast SSD storage and 128GB of DDR5 memory. Connectivity options include WiFi 6E*, along with available WWAN** and near-field

communication. And the P16 PC is certified to run top ISV applications without missing a beat.

* 6GHz WiFi 6E operation is dependent on the support of the operating system, routers/APs/gateways that support WiFi 6E, along with the regional regulatory certifications and spectrum allocation.

** Optional WWAN availability varies by region and must be configured at time of purchase; it requires a network service provider.

New cooling features, stunning visuals

The ThinkPad P16 mobile workstation has the industry's latest features—offering impressive functionality and great looks. To keep cool and quiet

over long work sessions, it's got a dual-bypass design with dual fans, vapor chamber cooling, a keyboard air intake, and rear vents. Visually, you can choose from high-res FHD+ IPS to UHD+ OLED displays, one with DisplayHDR™ 500 True Black.

Strong security—with easy recovery options

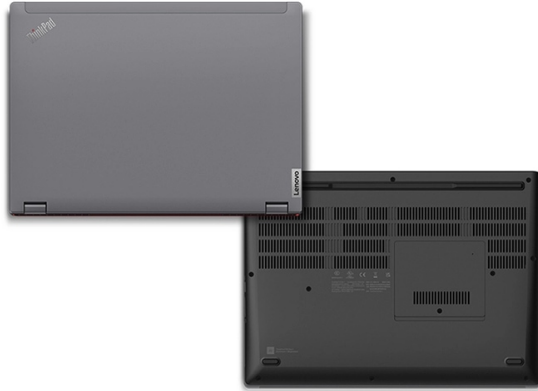

Built with security in mind, the ThinkPad P16 comes preloaded with Lenovo ThinkShield solutions. The discrete Trusted Platform Module (dTPM) encrypts your data, a self-healing BIOS can restore system settings if needed, and a fingerprint reader enables secure, one-touch log-ins. There's even a sliding privacy shutter to physically close the webcam.

Robust quality that endures

A mobile workstation needs to perform wherever your day takes you—sometimes in extreme conditions. So, like all ThinkPad laptops, Lenovo tests the P16

against 12 military-grade requirements and 200+ quality checks. It can handle whatever life throws your way, from Arctic-like freezing temperatures to desert-style dust storms to day-to-day bumps, drops, and spills.

A mobile workstation with a modern look

At 16", the redesigned workhorse mobile workstation, the ThinkPad P16 offers a slick, modern design in a portable size. It's got standout looks, too, with a Storm Grey cover, red accent lines, and narrow-bezel display with a roomy 16:10 aspect ratio. In addition, the redesigned vents send hot air out the back of the system, not the sides.

***Features shown below may not be available on all products. Please refer to product details page for specific product features.**

***Image is for illustrative purposes. Actual touchpad has four haptic sensors.**
