Description

Lenovo ThinkPad P16s Gen 3 Intel Core U7-155H 16GB RAM 512GB SSD RTX500 4GB Windows 11 Pro 3 Year – 21KS000RGR

Power Unpacked: Compact Strength, Limitless Creativity

Enjoy robust performance on the ThinkPad P16s Gen 3 (16" Intel) mobile workstation driven by the Intel[®] Core™ Ultra processor.

Handle intense workloads with ease — the dedicated AI engines boost productivity while advanced thermal system offer power efficiency.

Plus, opt for discrete NVIDIA RTX™ Ada graphics to savor superior visual fidelity.

Your Workstation, Your Way, Everywhere

Juggle tasks like a pro with the P16s Gen 3 mobile workstation. It boasts plentiful ports, swift memory, and superior

connectivity with WiFi capabilities and optional WWAN technology to stay online 24/7. Delivering robust performance at an affordable cost,

this device is ideal for architects, engineers, and 2D and entry-level 3D creators alike.

Clarity — With Capabilities, Without Compromise

Whether you're creating content or editing designs, the P16s Gen 3 workstation delivers supreme visual excellence with up to a 4K OLED display.

Each display option features anti-glare and most are certified for low blue light. The Communication Bar on the screen top

allows for seamless virtual interactions, boasting a 5MP camera and premium mics.

Efficiency in Action: Work Hard, Tread Lightly

To ensure steadfast performance for highly intensive tasks, this laptop includes powerful Intel® Arc™ graphics, plus the option of

NVIDIA® RTX™ Ada discrete graphics. The P16s Gen 3 workstation boasts independent software vendor (ISV) certified apps like Adobe®,

ANSYS®, & AVID®. It offers cost-efficient operation with ENERGY STAR® 8.0. The best part? It incorporates a mix of recycled

plastics and metals in its build and has plastic-free packaging.

Feel the Difference: Smoother & Smarter

Our redesigned ThinkPad keyboard includes tactile markings for improved accessibility. The TrackPad is even bigger for greater control,

and there's a customizable TrackPoint Quick Menu — triggered with a double tap. Plus, multitask faster with a dedicated Windows

Copilot key that streamlines your digital tasks, raising your everyday productivity.

Not Just Secure, A Virtual Stronghold

Benefit from ThinkShield, an advanced security suite, to encrypt data via a discrete Trusted Platform Module (dTPM).

Get layered protection with the Intel® Hardware Shield powered by AI. And, gain quick, secure device access with fingerprint

reader or facial recognition login features. Plus, its tested tough to comply with MIL-STD-810H standards.

***Features shown below may not be available on all products. Please refer to product details page for specific product features.**

***Image is for illustrative purposes. Actual touchpad has four haptic sensors.**
