Features

Packed with performance

The ThinkPad P17 Gen 2 mobile workstation is equipped with your choice of high-performing 11th Gen Intel® Core™ or Intel® Xeon® processors that deliver the mobile power and features you need to succeed. You get top-notch visuals, too, thanks to a wide selection of pro-grade NVIDIA® RTX™ graphics cards—up to RTX A5000 with 16GB of onboard vRAM. Plus, when you need a power boost, the Ultra Performance Mode setting delivers.

Maximize your creative space

You'll get more from your day with the ThinkPad P17 Gen 2 mobile workstation. It features a huge, 17.3? antiglare display—the biggest we put in a workstation. Choose a 300-nit FHD model or a 500-nit UHD model with Dolby Vision™ HDR. There's plenty of room for all your work, and you get ultimate visual performance wherever your day takes you.

Supported by Supertech Web Store

The speed you need

With up to 6TB of the fast-access SSD storage (M.2 PCIe Gen 4 NVMe), you'll read, write, and save project data like never before. Workflows are enhanced, too, with up to 128GB of speedy, 3200MHz memory that makes multitasking a breeze, even with memory-intensive applications. Plus, there are multiple ports and slots for device-to-device connectivity, including two USB-C Thunderbolt™ 4 ports.

Flexible IT procurement with Lenovo DaaS

Discover an innovative and ?exible approach to IT procurement—combining devices, service support and software into affordable, predictable monthly payments. Lenovo DaaS solutions take the burden of lifecycle management off your shoulders and help keep your team up and running.

Strong security, easy recovery

The ThinkPad P17 Gen 2 helps safeguard your data from the moment you pick it up. A match-on-chip fingerprint reader stores your biometric data on a separate system chip to deter hacking. In addition, there's the discrete Trusted Platform Module (dTPM) for hardware-based data encryption, plus a self-healing BIOS that can restore earlier system settings when needed.

Your workstation. Your way.

The P17 workstation offers ultimate flexibility, starting with the operating system, where in addition to a traditional Microsoft Windows OS you can choose from a variety of Linux® options from Ubuntu® and Red Hat®. You'll also get amazing audio thanks to the up-firing Dolby Atmos® Speaker System, with clear, distortion-free sound to motivate and entertain.

Rugged quality that endures

It’s called a workstation for good reason. The ThinkPad P17 Gen 2 laptop is built to perform, from its high-end processors and graphics to a rugged, durable construction that allows you to take it almost anywhere. Like all ThinkPad laptops, the P17 is tested against 12 military-grade specs and undergoes more than 200 quality checks to ensure it runs in extreme conditions.

Looking for a reliable and budget-friendly business laptop? Lenovo ThinkPad E14 Gen 5 with Intel Core i5 and sleek WUXGA display is available now at Supertech — best value in the market!
