The work-life balance laptop

From powerful 11th Gen Intel® Core™ processors to life-like NVIDIA® graphics, the ThinkPad T14 Gen 2 (14? Intel) laptop delivers everything you need for work and fun. Blazing-fast WiFi 6E gets you online faster and more stable than ever. Plus, time-saving features like a touch fingerprint reader, Modern Standby, and Wake on Voice add convenience and simplicity to your workflow.

A truly personal computer

Make the ThinkPad T14 Gen 2 (14? Intel) laptop the centerpiece of your work-life balance. It's as sleek and elegant as it is powerful, with an antimicrobial finish for Black models only. Equipped with up to 11th Gen Intel® Core™ i7 vPro processors and Intel® Iris® Xe or optional NVIDIA GeForce MX450 graphics.

Not all business

Not only is the Lenovo ThinkPad T14 Gen 2 (14" Intel) laptop everything you need for work—it's everything you want for in-home fun. Get top-of-the-line picture quality with up to a 14" Dolby Vision™ UHD panel for dazzling video and graphics. Combined with Dolby Audio™ Speaker System for enhanced sound, streaming movies or listening to music has never sounded better.

Smarter means tougher

Lenovo ThinkPad T14 Gen 2 (14" Intel) laptops are tested against 12 military-grade requirements and

more than 200 quality checks to ensure they run in extreme conditions. From the Arctic wilderness to desert dust storms, from zero-gravity to spills and drops, you can trust these laptops to handle whatever life throws your way.

For your eyes only

Enjoy the safety of ThinkShield security solutions, a combination of hardware and software that work together to keep your data safe from hackers or peering eyes. The optional PrivacyGuard panel features an electronic filter that decreases the angle of vision on your display—so people sitting next to you only see a black screen while you work. And with a discrete Trusted Platform Module 2.0 (dTPM 2.0) chip, the ThinkPad T14 Gen 2 (14? Intel) is an impenetrable fortress for your data.

With or without WiFi

The T14 Gen 2 (14" Intel) laptop can connect to the internet wherever cellular service is available with the optional LTE-A WWAN card*. You'll never have to worry about a lack of WiFi hotspots keeping you from taking a call or sending off a project file. And when WiFi is an option, you'll be flying through even the most crowded networks with up to WiFi 6E.

*WWAN must be configured at the time of purchase and requires network service.
