

Lenovo ThinkPad T14 Gen 4 Intel Core i7-1360P 16GB RAM 512GB SSD 4GB MX550 Windows 11 Pro 14"Wuxga 3 Year – 21HD009QGP

Description

Lenovo ThinkPad T14 Gen 4 Intel Core i7-1360P 16GB RAM 512GB SSD 4GB MX550 Windows 11 Pro 14"Wuxga 3 Year – 21HD009QGP

Features

A truly personal computer

Make the ThinkPad T14 Gen 2 (14" Intel) laptop the centerpiece of your work-life balance. It's as sleek and elegant as it is powerful,

with a brand-new Storm Grey aluminum top cover or an antimicrobial finish for Black models only. Equipped with up to 11th Gen Intel® Core™ i7 vPro

processors and Intel® Iris® Xe or optional NVIDIA GeForce MX450 graphics, it's built to make today's most demanding software and AAA gaming titles run smoothly and crash-free.

Not all business

Not only is the ThinkPad T14 Gen 2 (14" Intel) laptop everything you need for work—it's everything you want for in-home fun. Get top-of-the-line picture quality

with up to a 14" FHD panel for dazzling video and graphics. Combined with Dolby Audio™ Speaker System for enhanced sound, streaming movies or

listening to music has never sounded better.

Smarter means tougher

ThinkPad T14 Gen 2 14 inch laptops are tested against 12 military-grade requirements and more than 200 quality checks to ensure they run in extreme conditions.

From the Arctic wilderness to desert dust storms, from zero-gravity to spills and drops, you can trust these laptops to handle whatever life throws your way.

For your eyes only

Enjoy the safety of ThinkShield security solutions, a combination of hardware and software that work together to keep your data safe from hackers or peering eyes. The optional PrivacyGuard panel features an electronic filter that decreases the angle of vision on your display—so people sitting next to you only see a black screen while you work. And with a discrete Trusted Platform Module 2.0 (dTPM 2.0) chip, the ThinkPad T14 Gen 2 is an impenetrable fortress for your data.

With or without WiFi

The T14 Gen 2 (14? Intel) laptop can connect to the internet wherever cellular service is available with the optional LTE-A WWAN card*. You'll never

have to worry about a lack of WiFi hotspots keeping you from taking a call or sending off a project file. And when WiFi is an option, you'll be flying

through even the most crowded networks with up to WiFi 6E.

*WWAN must be configured at the time of purchase and requires network service.

Seamless security for healthcare professionals

Designed for use within a healthcare environment, the ThinkPad T14 Gen 2 14 inch laptop does practically everything but take the patient's temperature.

An optional built-in RFID reader aligns computer access with facility access—certified by Imprivata® for compatibility with all major single sign-on providers.

An optional FIPS 201-compliant fingerprint reader exceeds biometric security requirements for electronic prescriptions for controlled substances (EPCS),

helping hospitals ensure a higher level of encryption and network security, while simplifying the workflow for clinicians.

***Features shown below may not be available on all products. Please refer to product details page for specific product features.**

***Image is for illustrative purposes. Actual touchpad has four haptic sensors.**
