

Lenovo ThinkPad X1 Extreme Gen 4 Intel Core i7 11800H 16GB 512GB 4GB
Windows 10 Pro – 20Y5000CAD

Description

Lenovo ThinkPad X1 Extreme Gen 4 Ci7 11800H 16GB 512GB 4GB Windows 10 Pro – 20Y5000CAD

The **Lenovo ThinkPad X1 Extreme** Gen 4 is built for those who demand power, performance, and premium quality. Powered by Intel Core i7-11800H, 16GB RAM, and a 512GB SSD, it's perfect for multitasking, editing, and running heavy applications. With a dedicated 4GB GPU and Windows 10 Pro, this laptop is engineered for professionals.

Features

Mobile mastery

The ThinkPad X1 Extreme Gen 4 laptop boasts go-everywhere productivity, freeing you from the office. This powerhouse features Intel® WiFi 6/6E (Gig+) mobile connectivity and an unbeatable 5G WWAN option*. Plus, with a larger battery (90Wh), you can enjoy unplugged power for all-day creativity.

* 6GHz WiFi 6E operation is dependent on the support of the operating system, routers/APs/gateways that support WiFi 6E, along with the regional regulatory certifications and spectrum allocation.

Optional WWAN availability varies by region and must be configured at time of purchase; additionally, it requires a network service provider.

Rich audiovisual experience

A brilliant 16? display—either UHD+ or QHD+—with Dolby Vision™ and the peerless performance of up to NVIDIA® GeForce RTX™ 3080 discrete graphics make the ThinkPad X1 Extreme Gen 4 the go-to device for creating content or getting your game on. What's more, you'll especially enjoy the robust audio performance of the 20% larger, up-firing Dolby Atmos® Speaker System, which enables enhanced volume without distortion.

Comfort & convenience

All-day productivity is no problem with the ThinkPad X1 Extreme Gen 4 laptop. Low blue-light panels decrease eye-fatigue. A wider 115mm / 4.53 TouchPad and 1.5mm keystroke on the backlit ThinkPad keyboard boost functional comfort as the ideas flow.

Function never looked so good

From new antifingerprint paint to the Smart Power On integrated match-on-chip fingerprint reader with the power button, the ThinkPad X1 Extreme Gen 4 laptop has been redesigned to impress. New feature availability like the 16:10 UHD+ display, the FHD camera, four-sided narrower bezels, and carbon-fiber weave top cover blend the perfect balance of function and style.

Extreme performance

The ThinkPad X1 Extreme Gen 4 is built for extreme performance with up to the latest 11th Gen Intel® Core™ i9 vPro® H series processor, up to 64GB DDR4 (3200MHz) memory, and dual storage with up to 4TB total with Gen 4 performance PCIe SSDs. Accelerate inference performance with Intel® Deep Learning Boost to help speed up AI workloads, including image recognition, object detection, and other CPU-intensive tasks.

Extreme durability

ThinkPad laptops are tested against 12 military-grade requirements and more than 200 quality checks to ensure they run in extreme conditions. From the Arctic wilderness to desert dust storms, these tests cover severe environmental variables including temperature, pressure, dust, humidity, and vibration testing.

Stay 10 steps ahead of hackers

The ThinkPad X1 Extreme Gen 4 laptop features ThinkShield, our built-in suite of security solutions. The match-on-chip fingerprint reader integrated with the power button encrypts your biometric data on the system. Likewise, with the encryption of discrete Trusted Platform Module (dTPM), your critical data remains yours. Plus the Intel® Hardware Shield, exclusive to the Intel vPro® platform, delivers integrated hardware-based PC protection.
