Lenovo ThinkPad X13 Gen 4 CI7 1355U 16GB 512GB 13.3 Touch Windows 11 Pro – 21EX005RUS

Features

Supertech Web Store

Power to push through your day

With its compact chassis, long-lasting battery, and lightweight yet durable construction, the Lenovo ThinkPad X13 Gen 4 laptop is a portable business powerhouse. It runs on up to Intel® vPro®, with 13th Gen Intel® Core™ processing—delivering the power you need to get things done. And when your day runs long, this laptop can keep going. With Intel® Evo™ certification, you can count on consistent responsiveness, instant wake, all-day battery life, rapid charging, and intelligent video conferencing.

Connected & secure

The ThinkPad X13 Gen 4 laptop keeps you connected and your data safe. There's a full range of ultrafast connectivity options with WiFi 6E* and 4G or 5G WWAN**, so downloads and uploads can be near-instant, from virtually anywhere. It's got USB-C Thunderbolt™ 4, HDMI, and other speedy ports for transferring files and connecting peripherals. Plus, it's highly secure, with select Microsoft Secured-core models available and both up to Intel® vPro® and our own ThinkShield security features built-in. There's even a webcam privacy shutter and an optional power-on fingerprint reader.

*WiFi 6E requires Windows 11 Pro. Operation is dependent on the support of the operating system, routers/APs/gateways that support WiFi 6E, along with the regional regulatory certifications and spectrum allocation.

**Optional WWAN availability varies by region and must be configured at time of purchase; it requires a network service provider.

Easy on the eyes & ears

For long workdays, get a laptop with top-flight visual and audio features. The ThinkPad X13 laptop offers a crisp, vibrant 13.3" display—including, for Gen 4, an impressive 2.8K OLED option. Integrated Intel® Iris® Xe graphics support fast-changing imagery. There are two speakers and two mics. And it boasts both Dolby Audio™ and Dolby Voice® for improved sound in virtual meetings—or just for streaming movies and talking with friends.

Real-world durability

The streamlined ThinkPad X13 Gen 4 laptop is beautiful. It's also reliable, durable, and ready for the real world. We test every ThinkPad against 12 benchmarks in the US Department of Defense's MIL-STD-810H standards and put them through more than 200 quality checks—all so you can be confident your system will perform in extreme conditions. The tests cover harsh variables such as temperature, pressure, humidity, vibration, and more, simulating environments from the cold wilderness to the dusty desert.

Features you'll love

For Gen 4, the ThinkPad X13 has an optional backlit keyboard, which makes it easier to work in low-light conditions. In addition, the TrackPad is upgraded with a glass-like surface that delivers great finger-traction and feedback for precise cursor action. Choose from business-friendly colors that fit any professional environment. And when you get off the road and head to the office, it's easily dockable, whether your hub connects using Thunderbolt™ 4, USB-C, or USB-A 3.2 Gen 1.

Easy on the Earth

Help protect the planet as you're rising to the top of the business world. At Lenovo, we strive to build and deliver tech products with minimal impact on the environment. So your new ThinkPad X13 Gen 4 business laptop has post-consumer content (PCC) in multiple components, such as recycled plastic in 90% or more of the 54.7 Whr battery enclosure, the antenna/cable holder, and speaker enclosure. Plus, the top and bottom covers (A and D), and the keyboard frame (C) boast varying amounts of recycled aluminum and magnesium (depending on model).
