Windows 11 Pro 13.3" 3 Years – 21F20032GQ

Description

**Lenovo ThinkPad X13 Yoga Gen 4 Intel Core I7-1355U 16GB RAM 1TB SSD
Windows 11 Pro 13.3" 3 Years – 21F20032GQ**

Features

Secure & highly responsive

When it comes to compact, take-anywhere performance, it's hard to beat the ThinkPad X13 Yoga Gen 4 2-in-1 laptop.

For processing, there's highly secure Intel® vPro® available with up to 13th Gen Intel® Core™ i7 CPUs. The streamlined,

13.3" display delivers 100% sRGB color with vibrant visuals from integrated Intel® Iris® Xe graphics. It's lightweight,

easy to carry, and offers long battery life, so you can take your work—and your laptop—wherever you go. And with

Intel® Evo™ certification, you get consistent responsiveness, instant wake, all-day battery life with rapid charging,

and smart video conferencing.

Stay connected & protected

Stay securely in the loop with the ThinkPad X13 Yoga Gen 4 2-in-1 laptop. It offers WiFi 6E* and optional 4G WWAN** connectivity,

and it comes with ThinkShield, our powerful suite of hardware and software security features. There's the added protection

of Microsoft Secured-core PCs on select models. And the standard webcam privacy shutter and optional power-on touch

fingerprint reader, for extra peace of mind.

*WiFi 6E requires Windows 11 Pro. Operation is dependent on the support of the operating system, routers/APs/gateways

that support WiFi 6E, along with the regional regulatory certifications and spectrum allocation.

**Optional WWAN availability varies by region and must be configured at time of purchase; it requires a network service provider.

Four-mode flexibility

With the ThinkPad X13 Yoga Gen 4, you get the renowned power of a ThinkPad device with the amazing flexibility of a Yoga 2-in-1.

Whether you're using it as a laptop for a spreadsheet, as a tablet for a checklist, or using tent or stand modes for a presentation,

the sturdy 360-degree hinge lets you flip instantly to whatever configuration you need. You can use your finger to sketch and

write directly on the touchscreen. Or better yet, use the built-in pen, which has a garaged slot for easy access and charging.

Collaboration & productivity come 'standard'

Whether it's a videoconference or streaming entertainment, the ThinkPad X13 Yoga Gen 4 2-in-1 laptop enriches all you see and hear—right out of the box. An FHD RGB camera, Dolby Audio™, Dolby Voice®, and two far-field mics are all standard features, as is keyboard backlighting. Integrated Intel® Iris® Xe graphics deliver on-screen images that are crisp and clear. Plus, for Gen 4, the TrackPad has a glass-like surface that delivers great traction and feedback for precise cursor action.

Ready for real-world use

We use the US Department of Defense's MIL-STD-810H standards to help ensure every ThinkPad is reliable, durable, and ready for real-world use.

The ThinkPad X13 Yoga Gen 4 2-in-1 laptop is tested against 12 of these benchmarks and undergoes more than 200 quality

checks—so you can be confident it will perform even in extreme conditions. The tests cover harsh variables such as temperature,

pressure, humidity, vibration, and more, simulating environments from the cold wilderness to the dusty desert.

Easy on the planet, too

Sure, the ThinkPad X13 Yoga Gen 4 convertible laptop is powerful, portable, and tough. But did you know it's Earth-friendly, too?

It's made with an assortment of post-consumer content (PCC) in multiple components, such as recycled plastic that makes up 90% or more of the 54.7 Whr battery enclosure, the antenna/cable holder, and more. The top and bottom covers (A and D), and the keyboard frame (C) are 90% recycled magnesium. Even the packaging we use for shipping is predominantly recycled material.

***Features shown below may not be available on all products. Please refer to product details page for specific product features.**

***Image is for illustrative purposes. Actual touchpad has four haptic sensors.**
