Description

Lenovo ThinkStation P3 Tower Workstation Ci7 13700 16GB RAM 512GB SSD
Windows 11 Pro – 30GS000TAX

Features

Monitor, wireless keyboard and mouse sold separately.

Workstation might, desktop price

Designed by engineers for engineers, the Lenovo ThinkStation P3 Tower offers all the workhorse capabilities

of a workstation for the price of a desktop. Built for tasks that require superior power and performance, it's equipped with the latest 13th Gen Intel® Core™ processors, now up to 24 cores, and supports professional NVIDIA® discrete graphics.

Monitor, wireless keyboard and mouse sold separately.

Delivering power & performance

The ThinkStation P3 Tower's chassis has an advanced thermal design to promote extra power and performance,

without overheating. Featuring the latest professional graphics technology from NVIDIA to accelerate your workflow,

the P3 gives you the compute power to execute your visions, time and time again.

Monitor and wireless keyboard sold separately

Configure it any which way

With three onboard DisplayPorts, plus the ability to configure up to eight more, the ThinkStation P3 Tower can support up to 12 independent displays.

And with heaps of speedy memory and SSD storage, plus five open PCIe slots for a variety of network and

special purpose add-in-cards, this workstation can be configured to tackle your most exacting workflows.

Monitor, wireless keyboard and mouse sold separately

Mission-critical performance, made easy

At the heart of every Lenovo ThinkStation is reliability. Proven to run in extreme conditions, the ThinkStation P3 Tower also boasts an array of independent software vendor (ISV) certifications. It's the perfect workstation for designers, engineers, and students looking for versatility, flexibility, and breakthrough performance to breeze through heavy workloads.

Security you can count on

The ThinkStation P3 Tower is protected with ThinkShield, a suite of hardware and software that work together to safeguard

your workstation and data. This includes the discrete Trusted Platform Module (TPM) 2.0 to encrypt sensitive data,

as well as various programs to prevent unauthorized access to the BIOS, plus self-healing software if the BIOS is

corrupted or maliciously attacked. For extra peace of mind, it also supports Windows firmware updates.

***Features shown in description may not be available on all products. Please refer to product specifications for product details.**

***Image is for illustrative purposes. Actual touchpad has four haptic sensors**

Need more power for demanding workloads? The [Lenovo ThinkStation P3 Tower Workstation](#) with Intel Core i9-13900K is now available at Supertech—built for creators and engineers, backed by a 3-year warranty.
