

Lenovo ThinkStation P3 Tower Workstation Intel® Core™ i9-14900K 16GB RAM 512GB SSD Windows 11 Pro EN/AR 3 Year – 30GS00BQAX

Description

Lenovo ThinkStation P3 Tower Workstation Intel® Core™ i9-14900K 16GB RAM 512GB SSD Windows 11 Pro EN/AR 3 Year – 30GS00BQAX

Monitor, wireless keyboard and mouse sold separately.

Workstation might, desktop price

Designed by engineers for engineers, the Lenovo ThinkStation P3 Tower offers all the workhorse capabilities of a workstation for the price of a desktop. Built for tasks that require superior power and performance, it's equipped with Intel® Core™ processors with Intel vPro®, and supports professional NVIDIA® discrete graphics.

Monitor, wireless keyboard and mouse sold separately.

Delivering power & performance

The ThinkStation P3 Tower's chassis has an advanced thermal design to promote extra power and performance, without overheating. Featuring the latest professional graphics technology from NVIDIA to accelerate your workflow, the P3 gives you the compute power to execute your visions, time and time again.

Monitor and wireless keyboard sold separately

Configure it any which way

With three onboard DisplayPorts, plus the ability to configure up to eight more, the ThinkStation P3 Tower can support up to 12 independent displays. And with heaps of speedy memory and SSD storage, plus five open PCIe slots for a variety of network and special purpose add-in-cards, this workstation can be configured to tackle your most exacting workflows.

Monitor, wireless keyboard and mouse sold separately

Mission-critical performance, made easy

At the heart of every Lenovo ThinkStation is reliability. Proven to run in extreme conditions, the ThinkStation P3 Tower also boasts an array of independent software vendor (ISV) certifications. It's the perfect workstation for designers, engineers, and students looking for versatility, flexibility, and breakthrough performance to breeze through heavy workloads.

Security you can count on

The ThinkStation P3 Tower is protected with ThinkShield, a suite of hardware and software that work together to safeguard your workstation and data. This includes the discrete Trusted Platform Module (TPM) 2.0 to encrypt sensitive data, as well as various programs to prevent unauthorized access to the BIOS, plus self-healing software if the BIOS is corrupted or maliciously attacked. For extra peace of mind, it also supports Windows firmware updates.

Looking for a powerful yet affordable desktop? Check out our **Lenovo Workstation P2 Tower** with Intel Core i7-13700, 8GB RAM, and 512GB SSD, ideal for multitasking and everyday performance.
