

Lenovo ThinkStation P5 TWR Intel® Xeon® w3-2423 16GB RAM 1TB SSD
Windows® 11 Pro 3 Year – 30GA001CAX

Description

**Lenovo ThinkStation P5 TWR Intel® Xeon® w3-2423 16GB RAM 1TB SSD
Windows® 11 Pro 3 Year – 30GA001CAX**

The **Lenovo ThinkStation P5 TWR** is a powerful workstation built for professionals who demand performance, reliability, and efficiency. Featuring an Intel® Xeon® w3-2423 processor, this **Lenovo ThinkStation P5 TWR** delivers seamless multitasking, high-speed storage, and advanced graphics capability for engineering, design, and content creation needs.

The next-gen workstation has arrived

Engineered for ultimate productivity and versatility, the Lenovo ThinkStation P5 is the all-around industry workhorse for professionals that demand a scalable, future-proof workstation. Optimized for

designers, engineers, and creatives alike, it can support a broad range of compute-intensive tasks with ease, including BIM, complex 3D CAD, VFX, and edge deployments.

Extraordinary performance, power, & speed

With its Aston Martin-inspired chassis design and advanced thermals, the ThinkStation P5 workstation is designed to achieve groundbreaking performance. Key features include the latest Intel® Xeon® W processors, delivering a breakthrough new compute architecture, and support for up to two optional NVIDIA® RTX™ graphics cards, offering unprecedented rendering and AI performance. The result? Enough punch for any workflow, even in mission-critical environments.

Tried, tested, & true

The ThinkStation P5 workstation has been proven to meet Lenovo's exacting reliability and durability standards, ensuring that your systems leverage maximum uptime. It also boasts an array of independent software vendor (ISV) certifications, so compute-intensive applications, such as Adobe® and PTC®, are tuned to run seamlessly on even the most complex of tasks.

A future-proof machine

With high-speed DDR5 memory and ultra-fast PCIe storage, the ThinkStation P5 workstation is designed to improve your productivity. It also has the convenience of front drive access, hot-swap storage, tool-less chassis access, and an array of high-performance configurations. As a result, you can enjoy the flexibility of customizing your P5 to tackle your workload needs of today, knowing you can easily upgrade for the ever-increasing datasets of tomorrow.

One less thing to worry about

The ThinkStation P5 comes with ThinkShield—a suite of essential hardware and software security solutions that work together to protect your workstation and data. Trusted Platform Module (TPM) encrypts your data, while ensuring that your machine has not been tampered with. There are also various programs to prevent unauthorized access to the BIOS—and even self-heal the BIOS should it become corrupted or is maliciously attacked.
