

Lenovo ThinkSystem ST50 V2 Server XEON E 2324G SW RAID 8GB 1X2TB 500W 3 Year-7D8JA02YEA

Description

Lenovo ThinkSystem ST50 V2 Server XEON E 2324G SW RAID 8GB 1X2TB 500W 3 Year-7D8JA02YEA

ThinkSystem ST50 V2

Powerful, compact, and affordable first server

An entry tower server optimized for performance. A powerful, compact and quiet server ideal for discreet desk side or under desk placement in any business, retail, remote/branch or home office. The ThinkSystem ST50 V2 provides professional grade storage, reliability and serviceability. A first server designed to grow with your business.

Powerful and high value

An ideal first server for your growing business, remote/branch office, or retail location, the Lenovo ThinkSystem ST50 V2 enhanced performance increases productivity.

The ThinkSystem ST50 V2 boasts the improved operation of the latest Intel® Xeon® E-2300 processors. With a 17% increase in performance the ThinkSystem ST50 V2 offers professional-level capabilities at an entry-level price-point. High value versus a workstation with the benefits of a resilient server.

Flexible

The ThinkSystem ST50 V2 adds value and flexibility for your growing business by providing support for three PCIe slots with support of single NVIDIA GPU, and various high bandwidth network adapters along with an array of compatible storage drives. It can be scaled to fit your growing business, provides high reliability, and uses common components to reduce costs.

Lenovo's XClarity (USB) provisioning manager enables easy setup and firmware upgrades while Intel Active Management Technology (AMT) saves time and reduces costs by monitoring system health and preventing data disruption.

Energy-efficient, quiet, yet powerful

Designed for discretion the ST50 V2's compact size, flexible mounting options, and whisper-quiet acoustics allow it to be placed in an office environment without disruption.

It's energy-efficient with a TDP of no more than 95W and supports up to 8 core performance. Providing optimal performance for increased productivity and energy cost-savings.
