

Lenovo ThinkVision 23.8 inch Monitor with Webcam – T24v-30 3 Year – 63D8MAT3UK

Description

Lenovo ThinkVision 23.8 inch Monitor with Webcam – T24v-30 3 Year – 63D8MAT3UK

Overview

The ThinkVision T24v-30 Monitor is the perfect companion for work – especially when you need to collaborate with your teams remotely! Its 23.8-inch borderless screen size ensures that you have a monitor that's compact but still gives you enough screen real estate to view two windows side by side. You'll always get a clear view of the screen, irrespective of where you're sitting, with the In-Plane Switching panel that affords wider viewing angles with no distortion. Work documents and video content always look clear and crisp, thanks to the FHD resolution. Two noise-cancellation microphones, coupled with two 3W speakers ensure that all your video conferences and meetings run without any hiccups! Connecting your computer to your ThinkVision T24v-30 Monitor will never be a problem, thanks to a variety of input options – 1 x VGA, 1 x HDMI 1.4, and 1 x DP 1.2. Getting to your work has never been as seamless, with the Windows Hello Facial Recognition feature made available by the IR+RGB camera, while the 2MP, 1920 x 1080 resolution camera ensures that you always look crystal-clear to all your colleagues.
