

Lenovo ThinkVision P27h-30 Monitor, 27" QHD IPS Display, 60Hz Refresh Rate, 63A1GAT1UK

Description

ThinkVision P27h-30 27" QHD IPS Monitor

Lenovo ThinkVision P27h-30 Monitor with 27" QHD IPS display, 60Hz refresh rate, model 63A1GAT1UK. The Lenovo ThinkVision P27h-30 Monitor is a high-quality professional monitor perfect for office and creative use, available at Supertech.

The **Lenovo ThinkVision P27h-30 Monitor** is a premium 27-inch QHD monitor designed for professionals who demand sharp visuals, accurate color, and advanced connectivity. With a **2560 × 1440 resolution**, this IPS display delivers crisp detail and excellent clarity, making it ideal for business users, designers, content creators, and multitaskers.

The **QHD IPS display** provides more screen space than Full HD, allowing efficient multitasking with multiple windows side-by-side. The IPS panel ensures consistent colors and wide 178° viewing angles, while **99% sRGB color coverage** offers excellent color accuracy for creative projects. Factory calibration with Delta E <2 ensures precise color performance right out of the box.

Connectivity Features:

- USB-C port delivers up to 100W power, data transfer, and video display in a single cable
- HDMI and DisplayPort (in/out) support
- Multiple USB-A ports and RJ-45 Ethernet
- Daisy-chain support for multi-monitor setups

Ergonomics & Design:

- Adjustable tilt, swivel, pivot, and height for maximum comfort
- 4-side NearEdgeless bezel for dual-screen setups
- Low Blue Light technology and anti-glare panel to reduce eye strain
- Sleek, professional design with HDR10 support

With its **professional-grade features**, the **ThinkVision P27h-30 Monitor** is perfect for modern workspaces requiring performance, efficiency, and style. Available now at **Supertech**.
