

Lenovo ThinkVision S22i-30 Monitor – 63FCKATBUK

Description

Lenovo ThinkVision S22i-30 Monitor – 63FCKATBUK

Overview:

See all your documents in high detail on the ThinkVision S22i-30 with its 21.5-inch FHD screen. Easily collaborate with your team using the In-Plane Switching (IPS) display's wide-viewing angles. Work content looks rich and smooth with the monitor's 99% sRGB colour space coverage, 1000:1 contrast ratio and 75 Hz refresh rate. Leverage our Natural Low Blue Light technology to reduce eye strain without experiencing any colour distortion. Add to your desk's aesthetic with slim, 3-side NearEdgeless design and upgraded cable management. Enjoy a modern work experience with the integrated flexible phone holder and joystick control. Keep up with all professional commitments while doing your part for the environment with the monitor's recyclable cushion packaging. Connecting to any input device becomes hassle-free with the availability of both VGA and HDMI ports. Experience higher flexibility with the monitor's VESA compatibility. Adjusting the monitor to suit your ergonomics becomes simpler with the easy-to-assemble tilt stand.
