Overview

A monitor that’s more than just another screen, ThinkVision T24 m-20 renders easy connectivity and manageability to businesses. Enjoy the generous screen space of 23.8 inches on this FHD In-Plane Switching panel. With 3-side NearEdgeless bezels and daisy-chaining capability via the DP-out port, enjoy an unrestricted view and multitasking in a multi-monitor setup. It is equipped with USB Type-C technology that provides rapid transfer speeds via a one-cable solution. For secure and reliable connectivity and remote management, an Ethernet port lets users work uninterrupted. Ergonomic features with a clutter-free, space-saving design can’t go unnoticed on the T24 m, which makes for a

comfortable work experience wherever the users are. The monitor also actively works to safeguard your eyes with TÜV Rheinland Eye Comfort, TÜV Low Blue Light (Hardware Solution) and Natural Low Blue Light technology with Eyesafe certification that reduce flicker and harmful high-energy blue light that could otherwise cause eye fatigue. With sustainable packaging using pulp cushion, the T24 m monitor remains environmentally friendly throughout its life cycle. With ThinkColour software, you can instantly and effortlessly adjust the fine controls of the monitor.

Looking for a reliable and stylish display? Explore the Lenovo ThinkVision 23.8 inch Monitor – S24e-20 – 62AEKAR2WW. Featuring a Full HD 1920×1080 resolution, VA panel, and sleek, space-saving design, it’s ideal for everyday productivity. Now available at Supertech!
